

## ANNOUNCES PROVISIONS IN COLOMBIAN TREATY

### SECRETARY BRYAN'S STATEMENT FOLLOWS TALK WITH O'GORMAN

Proposed Agreement Calls for Free Use of Canal by Colombian Men-of-war, Troop Ships and Army and Navy Supply Vessels.

#### FRIDAY IN CONGRESS.

##### Senate.

Met at noon. Canal committee postponed until Monday further hearings on the Panama tolls exemption report.

Senator Chamberlain received a letter from President Wilson endorsing the proposal to send an American army engineer to aid in reclamation and flood work in China.

Debate was begun on the administration bill to conserve radium lands.

Adjourned at 5 p. m., to noon Monday.

##### House.

Met at noon. Debate was begun on the omnibus pension bill.

Postoffice committee considered plans for public hearings on proposals for government ownership of telephone lines.

Judiciary committee deliberated on the Park resolution for impeachment of Justice D. T. Wright of the District of Columbia supreme court.

Debate was resumed on the legislative appropriation bill.

Park resolution for impeachment of Justice D. T. Wright of the District Supreme Court was favorably reported by the judiciary committee.

Army engineers reported against a proposal to deepen the Potomac for navigation from Washington to Cumberland, Md.

Secretary Bryan announced a \$1,000 appropriation to send delegates to the international sanitary conference at Montevideo in December.

Adjourned at 6:15 p. m., until noon Saturday.

Washington, April 10.—Free use of the Panama Canal by Colombian men-of-war, troop ships and army and navy supply vessels is proposed in the new treaty between the United States and Colombia signed at Bogota Tuesday to heal the breach between the two countries over the separation of Panama.

This was announced tonight by Secretary Bryan, with the explanation that the clause in the convention was identical with one in the Colombian treaty negotiated by Secretary Root in 1909 with the approval of Great Britain and ratified by the United States senate though never accepted by Colombia.

Mr. Bryan's statement followed a long conference at the state department with Senator O'Gorman, chairman of the senate canal committee.

Senator O'Gorman, who is leading the Democratic opposition to President Wilson's canal policy, went back to the capitol carrying new ammunition for his fight. He would not discuss the matter himself, but other opponents of exemption repeal pointed to the fact that Great Britain in 1909 had agreed to a preferential treatment for Colombian vessels because of Colombia's peculiar relation to the canal as evidence that Great Britain and President Wilson now are putting a new construction on the words "all nations" in the clause of the Hay-Pauncefote treaty guaranteeing equal treatment to the vessels of the nations of the world using the canal.

Mr. Bryan said the treaty signed at Bogota employs the language of the Root-Cortés ship canal treaty granting the use of the waterway to the troops materials for war and ships of the war of the republic of Colombia without paying any duty to the United States even in case of an international war between Colombia and another country.

Committee Postpones Hearing.

Consideration by the senate committee on inter-oceanic canals of the proposed repeal of Panama canal toll exemption for American ships was interrupted today by lack of witnesses and further formal discussion of the issue was postponed until Monday. In the meantime opponents of the repeal plan to hasten arrival of representatives of Pacific Coast commercial bodies that they may appear before the committee to voice the sentiment of their constituents against the administration policy.

When the canal committee resumes Monday, Senator James Hamilton Lewis of Illinois, will be given an opportunity to discuss the bill which he offered as a compromise for flat repeal of toll exemption for American ships. The measure would repeal exemption but also would give the president authority to suspend tolls whenever he might deem it for the best interests of the nation.

It was apparent tonight that the toll controversy probably would not get formally before the senate for two weeks and the general opinion prevailed that the vote on the repeal will not be taken before June 1st.

#### BARON SUFFIELD DIES.

London, April 10.—Charles Harbord Suffield, fifth Baron Suffield, lord in waiting in ordinary to the king, died today. He was born in 1830.

## WILL USE SAFETY APPLIANCES IN SEARCH FOR "DRY" WORKER

Abandoned Coal Mines in Vicinity of Westville Will be Explored for Miner—Saloon Men Offer Reward.

Danville, Ill., April 10.—Safety appliances from the demonstration car of the mine rescue station at Urbana, which arrived at Westville today to instruct miners in rescue work will be used tomorrow in searching the abandoned coal mines in that vicinity for the Rev. Louis R. Patmont, the "dry" worker who disappeared March 31st. Block and tackle were this evening rigged over the south of the shaft of the Old Kelley Mine No. 1, which is 185 feet deep, and David Pierce, an experienced miner who has volunteered his services, will be lowered into it tomorrow morning. Fear of black damp will probably result in his using an oxygen helmet. It is believed there is very little water in this old mine. Others are filled with water.

Scores of "dry" workers from this and adjoining counties met this morning at Westville, and again an organized search of the town and vicinity was made under the direction of the sheriff's forces, but as on the previous day resulted in failure. While a dozen theories and rumors have been followed and investigated, not a single trace of the missing miner has been found.

The disappearance of the Rev. Mr. Patmont is the most inexplicable and mysterious that has confronted Vermillion county authorities in many years and coming in the heat of a local option campaign has aroused the people of both sides to a high pitch of excitement.

The saloon men of Westville have offered a reward of \$500 for information leading to finding the missing man and evidence that they were in any way responsible for his disappearance. As yet the local option forces have offered no reward, but probably will do so in a few days.

## PRESIDENT SPENDS FIRST DAY OF VACATION WITH HIS FAMILY

Attends Concert of Princeton University Clubs in Evening and is Given Ovation.

White Sulphur Springs, W. Va., April 10.—President Wilson spent his first day here in company with his family. The president could not resist the ties of his college days, however and tonight he and the family accepted the invitation of the Princeton University glee, mandolin and banjo clubs to attend their concert.

A Princeton cheer rang through the ball room as the president took his seat in the audience. He was given an ovation by the crowd as well and seemed greatly to enjoy the songs and selections.

Mr. Wilson golfed in the day, shortly after his train arrived and before the fashionable colony had aroused itself from its slumbers. He played 18 holes and climbed up and down the hills with a vigorous stride. The Wilson family took the meals in their apartment. In the afternoon the President and Mrs. Wilson, accompanied by their second daughter, Mrs. Francis B. Sayre, went driving while two other members of the presidential party rode horseback over the hills. The president and Mrs. Wilson had hardly left the hotel when two newspaper photographers layd them. When President Wilson asked that no pictures of her be taken, the photographers retreated with apologies. Mrs. Wilson did not appear to be entirely recovered from her recent illness, showing the effects of long confinement by the pale complexion. The president hopes the mountain air will benefit her.

She will stay here perhaps two weeks, and, according to tentative plans, the president after spending Monday, Tuesday and Wednesday of next week in Washington will return here again on Thursday to spend the week-end with his family.

## IFRE WIPES OUT BLOCK OF BRICK STRUCTURES IN EDINBURGH

Springfield, Ill., April 10.—Fire that started from an unknown origin in the basement of a restaurant at Edinburg, Ill., twenty miles southeast of here, spread to adjoining buildings, wiped out a block of brick structures and at midnight was threatening to destroy the village. A factory near the block where the blaze started is expected to keep the fire from spreading in that direction. Aid was asked from the local fire department. Fire fighting apparatus and men were sent from this city.

The loss is estimated at \$60,000.

## AVIATOR AND PASSENGER ARE KILLED IN FALL.

London, April 10.—Reichelt, the German aviator and a woman passenger were killed today when the motor of his monoplane exploded and the air craft fell 2,000 feet. The woman was dead when extricated from the debris and Reichelt died at the hospital.

Reichelt previously had numerous narrow escapes from death. In 1913 the aviator arose 6,000 feet with a passenger, his motor stopped and he was compelled to plane downward through a heavy fog, he landed on a house, crushing through the roof, but he and his passenger escaped injury.

## GUGGENHEIM RESIGNS.

Denver, April 10.—Simon Guggenheim, former United States senator from Colorado, today resigned his position as national Republican committeeman.

## MEXICANS ARREST AMERICAN MARINES

### ARE PARADED AROUND STREETS OF TAMPICO AND HELD FOR A TIME

Admiral Mayo Makes Vigorous Representations to Authorities and Men are Released—Huerta Apologizes in Statement to O'Shaughnessy.

Mexico City, April 10.—A launch from the United States gunboat Dolphin, carrying the paymaster and a small detachment of marines, put in yesterday at Turbide bridge at Tampico. The American were after a supply of gasoline. They were in uniform, but unarmed. The launch flew the American flag.

Colonel Hinojosa, commanding a detachment of Mexican federales, placed the paymaster and his men under arrest, they were paraded through the streets and held for a time under detention. Admiral Mayo made vigorous representations to the authorities and the men were released.

Gen. Ignacio Zaragoza expressed to Admiral Mayo his regret.

Although President Huerta in an official statement to Nelson O'Shaughnessy, the American charge d'affaires, has apologized for the unusual zealousness of the Mexican commander at Tampico, there exists here tonight great uneasiness because Admiral Mayo is reported to have given the government authorities at Tampico until 6 o'clock this evening to salute the American colors.

President Huerta's statement was not received by Mr. O'Shaughnessy until after 6 o'clock and it was considerably later before communication with General Zaragoza could be obtained.

Read Admiral Fletcher, the ranking admiral of the gulf, who is now at Vera Cruz, has forwarded to Charge O'Shaughnessy Admiral Mayo's report to him, in which the latter says the paymaster and marines "were marched through the streets two blocks, then back to their boat and released."

In view of the publicity Rear Admiral Mayo asked for a disavowal and apology and also that the officer in charge of the Mexico squad should be punished and that the American flag should be saluted within 24 hours. The American charge said that the incident was not first reported to him by Admiral Fletcher, nor by any other American government official, but that it was called to the attention of the Mexican foreign office. He immediately visited the foreign office and accompanied by the sub-secretary—the foreign minister, Senor Portillo y Rojas, being out of town—called on President Huerta and suggested he take prompt action to relieve the situation.

President Huerta was inclined to take the incident lightly and unhesitatingly agreed to make reparation. He promised an investigation and the punishment of the officer found to be at fault.

## Is Short of Ammunition.

Vera Cruz, April 10.—An official report sent by the commanding officer at Tampico, General Zaragoza, to the minister of war through this port says he had to face a severe attack from the rebels several days ago, but since the attacks have been very weak, diminishing his force each day. He reports that only four federales were wounded and none killed, but that he is exceedingly short of ammunition.

## Rebel Aeroplane at Work.

Douglas, Ariz., April 10.—Flights over the federal ships outside Topolampo harbor were made today by the constitutionalist aeroplane "Sonora" and bombs were dropped, according to a message received here by constitutionalist Consul Lelivier. Whether any damage was done was not stated.

## Federals Evacuate San Pedro.

Juarez, Mexico, April 10.—San Pedro, forty miles northeast of Torreon, was evacuated by the federales from a force of superior numbers today, according to a report from General Villa to General Carranza.

## Pelzer Given Nine Years.

Douglas, Ariz., April 10.—Arrivals at Naco from Cananea report that B. F. Pelzer, an American, arrested last week on the charge of circulating counterfeit rebel currency, was sentenced yesterday to eight years penal servitude.

## Pelzer's safe was said to have contained several hundred counterfeit pesos. Later it was charged, he was forced to show a secret hiding place where several thousand counterfeit pesos were found.

## POLICE INVESTIGATING DEATH

Des Moines, Iowa, April 10.—Police are today investigating the death of Herman Zimmerman, son of William F. Zimmerman, manager of a prominent Chicago publishing house, whose body was found on the Rock Island railroad track here last night. The body was identified today. Zimmerman formerly was a student of the Ames agricultural school.

## BANKER GETS SIX YEARS.

Fort Worth, Texas, April 10.—M. L. Woods, former vice-president of the State National Bank of Fort Worth, charged with wrecking that institution today was sentenced to six years imprisonment Woods' defalcations which extended over several years, amounted to \$155,000.

## TWO STORMS THREATENING SNOW AND RAIN APPEAR UNEXPECTEDLY

Weather Bureau Experts Announce Indications of Rain Sunday and Monday in Central and Northern States East of the Mississippi.

Washington, April 10.—Two storms, one over Lake Superior, threatening snow and the other in western Texas with rain, unexpectedly appeared tonight. The weather bureau experts announced that they could not predict with any degree of certainty just what the weather would be in the east. They said, however, there were indications that in the southeast states and west of the Missouri it would be fair and warm, while it might rain Sunday and Monday throughout the central and northern states east of the Mississippi.

## Wind Blows Truck; Injures Two.

Chicago, April 10.—Two children were probably fatally injured here today when they were struck by an automobile truck which was driven down a West Side street by the wind. The machine had been left standing unattended in front of a warehouse. A forty six mile gale which had been blowing off the lake nearly all day started the truck in motion.

Signs were blown down, windows broken and traffic impeded by the high wind.

## SETTLE DISPUTED POINTS IN AWARDS MADE BY BOARD

Arbitration Body Files Ruling on Claims of Employees That Railroad Misinterpreted Some of the Awards.

New York, April 10.—Disputed points in the awards made some time ago by the federal arbitration board which decided on the complaints of the \$5,000 trainmen and conductors against the eastern railroads were definitely settled today. The board filed in the United States district court here its ruling on the claims of the employees that the roads misinterpreted some of the awards in a manner to affect the men adversely. The ruling tied today becomes under the Newland act part of the document of the awards.

The principal complaint of the men related to article six of the original award. This provided that the earnings of the men shall not be diminished by the awards in case the rates of pay were higher before the arbitration proceedings were begun. Under the ruling filed today it appears that the question is one which must be decided by both sides with arbitrary intercession by the federal board.

Nearly all the men's complaints had reference to points in which the interpretations are so technical that while the federal board was desirous of summarizing its labors it was unable to do so.

## UNEARTH SKELETONS OF A VERY ANCIENT RACE

Work of Raising Roads in Vicinity of Niotia, Ill., Leads to Uncovering of Twenty Four Skeletons.

Fort Madison, Iowa, April 10.—The twenty four skeleton from what is believed to have been an old Indian burying ground was uncovered at Niotia, Ill., across the river from here today, in connection with the work of raising several roads in the vicinity preparatory to building the Copper dam on the Mississippi.

Shortly after the work of raising the roads was begun last week the first skeleton was exhumed. The daily exhumation of bones since caused Professor A. O. Thomas of the geological survey of the University of Iowa to make a visit here.

Professor Thomas expressed the opinion that the bodies were those of a very ancient race. Pottery found among the graves was not of the substantial type made by the Sach and Fox Indians who formerly inhabited this region but was much cruder.

## MRS. GIEGEL BRINGS SUIT.

New York, April 10.—Mrs. Henry Siegel, wife of the bankrupt department store prince, brought suit in the supreme court today to set aside deeds depriving her of her down right in the Siegel estate. "Driftwood," at Mamaroneck, New York. She maintains that her husband, whom she is now suing for divorce induced her to sign these deeds in 1910 by fraudulent promises.

## OPERATE GOVERNMENT RAILROAD AT A PROFIT

Washington, April 10.—The only standard gauge railway ever built and operated by the United States was run at a profit in 1913. Figures given out today by the reclamation service show the road—the Boise and Arrow Rock of Idaho—had net earnings of \$9,721 last year. It is 20 miles long and is run in connection with the Arrow Rock dam, which is to be the highest in the world.

## BODY ARRIVES IN TOKIO.

Tokio, April 11.—The body of the Dowager Empress, who died Thursday at Nanzen, arrived here about mid-night. It was transported in a coach to the palace through streets lined with troops.

Five hundred thousand persons stood with bared heads while the body passed. An official announcement of the Dowager's death was then made.

## NO CHANGE IN CONDITION.

Los Angeles, April 10.—No change was reported today in the condition of W. A. Scripps, the aged millionaire, ill of pneumonia at Altadena.

## SCALE COMMITTEES REMAIN IN SESSION

### ILLINOIS MEN WILL WORK UNTIL DIS- AGREEMENT OR AGREEMENT IS MADE

Delegates to Illinois Mine Workers' Convention Leave for Their Homes—Ohio Operators Will File Injunction Suit to Test Constitutionality of Law.

Peoria, Ill., April 10.—Delegates to the mine workers' convention from all parts of Illinois who have been waiting for an agreement between the two wage scale committees of the United Mine Workers of Illinois and the Illinois Coal operators departed for their homes tonight. The wage scale committees which will remain in session, held an all day conference and wrangled over the demands of the miners and operators until nearly midnight. Leaders at that time predicted there would probably be no agreement reached which would require the attention of the convention delegates for at least two weeks. Coal operators stated tonight that practically no headway had been made toward settling the disputes which have been in the hands of the committee for the past week. While the sessions are not open to the public, committeemen on both sides declare they have evolved themselves into nothing more than extended debates with no action of any kind taken on any of the three hundred demands of the operators and the four hundred demands of the mine workers.

The session will continue until an agreement or disagreement is reported.

## Will File Injunction Suit.

Columbus, Ohio, April 10.—Ohio bituminous coal mine operators in conference here today, decided to test the constitutionality of the Green anti-strike law by filing an injunction proceedings in the federal court to restrain state officials from enforcing the law which, the operators declare, is the cause of the suspension of work in Ohio mines.

The suit, it was announced after the executive meeting of the operators will be filed as soon as a committee appointed today and attorneys in charge can arrange it. If an injunction is secured the operators declared there will be nothing to prevent an early resumption of work at the mines at least while the law was being tested in court. The operators said they have no thought of acting under the law as it now stands.

## Reject Fourteen Demands.

Terre Haute, Ind., April 10.—Fourteen of the sixteen demands presented here by the miners of District No. 11, United Mine Workers of America, had been rejected by the operators and eight amendments to the old contract offered by the operators have been refused by the miners when he conference adjourned tonight. Just before adjournment a committee composed of fifteen members from each side was named to make a final effort to adjust the differences between the operators and the miners.

## To Take Referendum Vote.

Calumet, Mich., April 10.—Copper country locals of the Western Federation of Miners decided today to take a referendum vote on the question of calling off the strike which has been waged here since July 3, 1913. The vote will be taken next Sunday and its result announced on the following day.

## GROWS MONSTER LEMONS.

Chicago, April 10.—Twenty four lemons, averaging twelve inches in diameter and two pounds in weight today were cut from a tree grown in a sixteen inch pot in one of the green houses of the botanical department of the University of Chicago. The fruit said to be the largest specimen ever shown was raised by W. J. O'Carroll, head botanist from a tropical hybrid imported from South America.

## BEGINS WRECK PROBE.

Attica, Ind., April 10.—The inquiry ordered by the Indiana public service commission into the cause of the wreck of the Wabash Continental Limited passenger train here last Sunday when the engine and three cars were toppled into the Wabash river by the breaking of the railroad bridge, was opened today by Commissioners McClure and Matthews. The hearing was conducted behind closed doors. Three persons were killed and thirty-eight injured in the wreck.

## FILE SUIT AGAINST GOVERNOR.

Topeka, Kans., April 10.—Governor George H. Hodges of Kansas was made the defendant in a civil suit filed in the district court here today by Mrs. Luella West of Wichita, Kans., who charged in her petition that the governor wrenched her wrist and arm and struck her on the shoulder with his fist during an alleged altercation in his office last Wednesday.

## SENTENCED ON TECHNICAL CHARGE

Fort Worth, Texas, April 10.—In federal court here Turdie Arnold of Blytheville, Ark., accused of having sixteen wives was sentenced to ten years imprisonment on a technical charge of violating the Mann white slave act. Seven of Arnold's alleged wives testified against him.

## FAILURES OF RADIUM IN CANCER TREATMENT OUTNUMBER CURES

Some of the Foremost Surgeons of the Country Abandon Hope of Cure by Ray Treatment.

New York, April 10.—All hope of curing cancer by Radium has been abandoned by some of the foremost surgeons and research workers of the country who declared at tonight's meeting of the American Society for the Control of Cancer that the failures of radium outnumber the cures 100 to 1.

That nothing is of avail against the most dreaded diseases but the speedy use of the knife was the opinion advanced by Dr. William H. Mayo of Rochester, Minn.

Operation is the only cure, but radium or ray treatment is in order as a temporary palliative, where operation is impossible according to Francis G. Wood, director of cancer research at Columbia University.

Another generation will be required to furnish knowledge on the real cause and actual nature of cancer he said. Experiments for thirty-five years show that heredity plays a small part if any at all in its appearance. It was expected that the members of the society would have something hopeful to report of their investigations. Instead they admitted no progress and held out little hope. They united in saying they had discovered neither the cause nor the nature of cancer. Then they proved by statistics that cancer is on the increase.

## VAIN EFFORTS MADE TO OBTAIN DETAILS OF NEW HAVEN

Inter-State Commerce Commission Unable to Get Details of Financial Transactions.

Washington, April 10.—Vain efforts were made by the inter-state commerce commission at a public hearing today to obtain details of financial transactions between New York, New Haven and Hartford railroad and subsidiary, the New England Navigation company and the so-called billiard company through which millions of dollars are alleged to have been improperly diverted from the New Haven.

Witness after witness refused, point blank to testify to any of the affairs of the billiard company or to produce any of the books, records or agreements said to be in existence, concerning its financial transactions.

Joseph W. Folk, chief counsel for the commission announced at the close of a day of virtually fruitless questioning, that he would institute in the supreme court of the District of Columbia next Monday proceedings in mandamus to compel the recalcitrant witnesses to reply to questions put to them and to produce books, records and contracts called for by the subpoenas of the commission. Further proceedings were postponed until April 29th by which time it is hoped that the courts may have passed upon the mandamus proceeding.

## FOLLOW SIGNS ORDER

Burwell Has Police Record.

Waterbury, Conn., April 10.—William E. Burwell of this city, who has made an affidavit that he witnessed the Rosenthal shooting in New York has a police record extending back to December 1906. Burwell has been arrested at least ten times the police say, for various minor crimes including shoplifting, assault, breach of the peace and non-support. He spent a term in jail for the latter offense in 1912.

## SENTENCE WHITE WOMAN TO HANG

Tallahassee, Florida, April 10.—For the first time in the history of Florida, a white woman was today sentenced to hang.

Sister Johnson, aged 35, was found guilty in Calhoun county of killing John W. Hittington, aged 70 years, a farmer, four years ago at Altha, a small country town.

## PIONEER RESIDENT SUICIDES.

Boone, Iowa, April 10.—Henry Fullerton, pioneer resident of central Iowa, committed suicide last night by placing the muzzle of a shotgun against his stomach and discharging it by means of his walking stick. He had been ill for many months.

## INDICTED FOR BURGLARY.

Des Moines, Iowa, April 10.—William Richards, former deputy United States marshal and Ed Gorman, a barber, were indicted today for burglary. Richards also was indicted on a charge of carrying concealed weapons. The two are accused of entering a private home.

## THE WEATHER

WASHINGTON, April 10.—Illinois—Rain in south, rain or snow in north portion Saturday and probably Sunday, colder Saturday north and central portions, fresh west to north breezes becoming northeast Saturday night.

Temperatures.

The current, maximum and minimum temperatures recorded Friday were:

Jacksonville	49	53	28
Boston	46	52	32
Buffalo	38	48	28
New York	40	52	30
New Orleans	56	64	42
Chicago	48	49	34
Detroit	42	48	30
Omaha	46	54	38
St. Paul	36	48	32
Helena	48	50	38
San Francisco	60	62	54
Winnipeg	20	32	32

## SIGNS ORDER TO MAKE WHITMAN SHOW CAUSE

### MUST SHOW WHY CONVICTED GUN- MEN SHOULD NOT BE GIVEN TRIAL

Order is Returnable Before Justice Goff at Noon Today When Sharp Legal Battle is Expected—Reputed Alibi Refuses to Change Glynn's Position.

New York, April 10.—Supreme Court Justice Goff tonight signed an order making it mandatory for District Attorney Whitman to show cause why the four gunmen, now in Sing Sing awaiting death in the electric chair for the part they played in the murder of Herman Rosenthal, the gambler, should not be granted a new trial.

The order is returnable before Justice Goff, who presided at the trial of the gunmen at noon tomorrow, and was obtainable upon the ground that new evidence had been discovered. This new evidence in the form of affidavits, was presented to Justice Goff by Charles G. F. Wahle, of counsel for the condemned men. The signer in one affidavit swore that a man he could identify and who was not one of the gunmen was in the firing party whose shots killed Rosenthal. The other declared that he saw Sam Schopp, "Bridge" Weber, and Harry Vallon, the informers and not the men convicted, in the car that raced away from the scene of the crime after the tenderloin gambler had been shot to death in front of the Metropole Hotel.

The order was served upon District Attorney Whitman tonight and preparation of arguments to show why the gunmen should not be granted a new trial was immediately begun. A sharp legal battle is expected before Justice Goff when the order is returned.

The two principal affidavits Wahle urged Justice Goff to consider, before the latter signed the order, were those of William E. Burwell, of Waterbury, Conn., a professional billiard player, and Karl Dresner, a bar tender of New York.

## Fails To Change Position.

Albany, N. Y., April 10.—A memorandum of the cases of the four gunmen filed forth in the main, a reputed alibi for "Dago Frank" Cirofici, which was forwarded to Governor Glynn today by C. G. F. Wahle, their attorney failed to change the executive's position in his refusal to grant them a reprieve.

"I have received and read your supplemental application in the case of your clients," the governor telegraphed Wahle tonight. "I find nothing therein which I had not previously known."

Besides receiving the memorandum the governor today heard a personal appeal for the gunmen from Mrs. William Vanamee of Newburgh, the wife of an attorney for the convicted men, who was too ill to appear in person.

The governor's answer was that his decision was final. One of the arguments which had been made to the governor has been that he should not allow the four gunmen to die during the feast of the pass-over inasmuch as three of them, all except Cirofici, are Jews.

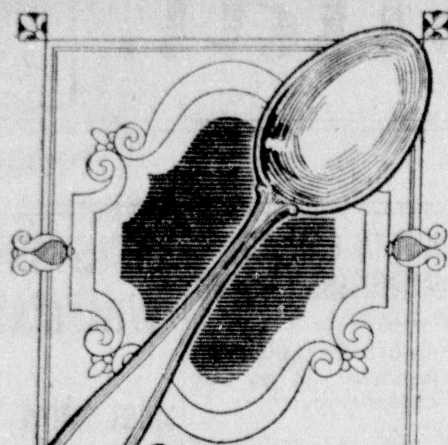

## STATE'S ATTORNEY ASKS MERCY FOR SELF-CONFESSED MURDERER

Joins With Robert Higgins' Counsel in Asking Mercy for Wife Slayer Who Pleads Guilty.

Galesburg, April 10.—The state's attorney joined with Robert Higgins' counsel today in the Mercer county circuit court in asking mercy for the man who pleaded guilty to the murder of his wife.

W. J. Graham of Higgins' counsel, declared that if Judge Olmstead sentenced Higgins to death he would demand a jury trial. Judge Olmstead said he had no intention of sentencing Higgins to death but that the sentence would be. Evidence was offered by the state in support of Higgins' plea of guilty. Higgins sat with his face hidden in his hands during the reading of the deposition

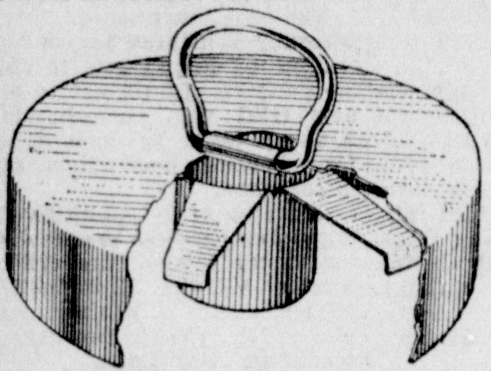

Plated ware  
that will wear  
for every day use.

For every day usage you of course desire plated ware. You will find in our store only the best grades of plated ware—the durable, long-wearing kind. You can choose from a very large and beautiful assortment of patterns priced remarkably low. 6 heavily plated knives and forks. Hollow handle, swaged blade, any design \$5 to \$12. 6 teaspoons, triple plated, any design, \$2 and up.

### YOUTH OVERCOMING DEAFNESS BY DILIGENT WORK AND STUDY

Carey Cook Shaw of Houston, Texas, Is Being Brought From "Great Silence" by Miss Clara Louise Gordon of This City, His Teacher.

Following is a remarkable story of a child who has never heard a sound, yet is coming out of "great silence" by hard work. His name is Carey Cook Shaw and his home is in Houston, Texas.

The story of the achievements of this boy, narrated in a recent issue of the Houston Chronicle, in part follows:

"Houston has a small boy who is about to become a geographical and mathematical prodigy, although he has been from babyhood fettered by one of the greatest of handicaps, that of deafness. He is the little 9 year old son of Carey Shaw, Faunin street and Dennis avenue.

"Carey Cook Shaw is now nine and a half years old. In his studies he is parallel with children in the fourth grade in the public schools. He never heard the notes of a human voice or caught the sound of a single word even from the lips of his mother or his father, and yet he understands what is said to him and follows the conversation of grown people with eagerness, making them stop and explain any point that he does not catch from watching their faces as they talk.

**Writes Lessons and Letters.**  
"He writes his lesson exercises and he also writes letters to anybody who sends him a letter or a post card. At will he writes long hand or he sits down at his father's typewriter and himself types out a letter that is properly written, spelled, capitalized and punctuated. Not only that, but he has a vocabulary of several hundred words, speaking in a natural tone of voice, and is able to ask orally for anything that he wants to have or do. Right now he hates to talk and only does so under protest, but the time is coming when he will talk naturally and fluently on any subject within his ken. He does not know the sign alphabet for the deaf and dumb, nor do his parents and teachers use any system of signs to communicate with him. This they have always avoided so that he might learn to read conversation on the lips of those speaking and to speak to them with his own voice.

**How He Is Taught to Talk.**  
"The little deaf boy watches his teacher's lips and moves his lips as hers move, he puts his fingers on her throat and notes the delicate difference in vibration between the utterances of one sound and another, and puts his fingers on his own throat and makes vocal sounds until the vibration is the same. The teacher nods when he has it right and he must remember, and so little by little he learns to speak, to talk, to converse.

**So the parents devote themselves to the one task of giving the baby his chance.** For a short time he goes to a school for the deaf, but the most of the time he has had his own teacher.

**Jacksonville Woman His Teacher.**  
"Miss Clara Louise Gordon of Jacksonville, Ill., trained in work with the deaf, has been the boy's teacher for four years. All his progress has been made under her tutelage. Slowly the gift of speech has come, and rapidly every other faculty of the child's mind has unfolded. He has a genius for dates and figures, marks his calendars ahead and insists that everything come off on schedule time. One of his pleasures is to help his father arrange his checks and compare returned checks with the check book stubs.

"The 'little fellow,' as his father always calls him, has his own way of asserting his facts. On Friday Miss Gordon undertook to tell him something about God. He scornfully said 'God, Friday, no; God Sunday.' He did not want to be bothered about God on a week day.

"He loves the movies, of course, and no doubt gets more from them than the rest of us do because to him they speak, and the play goes on with full accompaniment of language, speech and utterance to the little deaf boy who hears with his eyes, while to the rest it is dumb show with an occasional word understood now and then.

"Most of all, however, he loves the theater and grand opera, and sits fascinated, his chin propped on the chair in front, losing no motion and no syllable of the actors and understanding the story, or if anything was obscure to him, his mother or teacher or father must make it clear afterwards.

"When Carey Cook grows up he will be a finely educated man, able to take care of himself, and enjoy life, because his parents would not leave him in the silence, but through other ways opened the doors of life and the doors of speech to him."

**County Board Head Vetoes Bills.**  
Chicago, April 10.—Silk shirts, taxi-cab ideas and expensive entertainment for state witnesses in criminal cases are no longer to be paid for by Cook county, according to the action of A. A. McCormick, president of the county board, who today vetoed bills for nearly \$4,000 which the county finance committee had recommended be paid. One auto livery company's bill was for \$334. It was made out as "riding."

### RESERVE BANK COMMITTEE DEFENDS ITS CHOICE OF CITIES

Makes First Official Answer to Criticisms Voiced in Congress and Heard From Cities Which Sought Banks.

Washington, April 10.—The federal reserve bank organization committee tonight issued a statement defending its choice of reserve bank cities and definition of reserve districts. It was the first official answer made to criticisms voiced in congress and heard from cities which sought reserve banks but failed to get them. For the first time some of the data used by the committee in reaching its conclusions was made public.

"With so many conflicting claims," said the statement, "somebody had to judge. Critics of the decision of the committee reveal misunderstanding and either do not know or appear not to know that the federal reserve banks are bankers' banks and not ordinary commercial banks.

"Every city can continue to do business with individuals, firms or in its own region or in any part of its own region or in any part of the union or the world in which it has heretofore done business. Reserves are to be held in a new way and in new places so far as this act controls them, but banking and business generally will no more be confined within districts than heretofore.

In support of its choice of Kansas City the committee said that Montana, Idaho, Texas and Nebraska opposed Denver and that the majority of the banks in a tentative district suggested by Omaha were opposed to its selection and preferred other cities.

"It seemed impossible," say the statement, "to serve the great section from Kansas City to the mountains in any other way than by creating a district with Minneapolis as headquarters.

"The only other thing that could have been done with Nebraska under the conditions which presented themselves was to relate her to Chicago and this seemed to be inadvisable in the circumstances.

"It will, of course, be recognized by those who are informed that of the four cities, Kansas city is most dominant banking and business center.

**DR. ALEXIS CARREL DISCUSSES LATEST EXPERIMENTS IN SURGERY**

Has Succeeded in Shutting Off the Blood for Two or Three Minutes After Operation of Having Heart Resume Regular Pulsations.

New York, April 10.—Dr. Alexis Carrel, head of the Rockefeller Institute and winner of a Nobel prize in science, discussed his latest experiments in surgery of the heart before the American Surgical association here today. These experiments were performed on dogs.

"In several recent instances," Dr. Carrel said, "I have succeeded in clamping the neck or pedicle of the heart thus shutting off the circulation of the blood for a period of two or three minutes and giving opportunity for a rapid operation on the aortic and pulmonary valves. After the operation was completed and the clamps removed the heart resumed its pulsation and after a very short time the pulsations became regular."

Dr. Carrel indicated that this new surgery would make possible the curing of many valvular heart troubles.

**HIP POCKET DEFENSE SAVES DI GAVANIO**

Chicago, April 11.—The so-called hip-pocket defense saved Peter diGaviano, 18 years old, who was acquitted tonight of a charge of having murdered Andrew and Giuseppe Neglioco in a fight after a card game.

One witness in cross-examination testified that Andrew Neglioco put his hand on his hip pocket as if to draw a weapon. The jury was out ten minutes.

**Only One She'd Heard Of.**  
Fogg reports that he overheard this in the book department of one of our big stores:

Customer—Have you Arnold's poems?  
Salesgirl (turning to head of department)—Miss Simpson, have we Benedict Arnold's poems?—Boston Transcript.

**Disappointed.**  
"I went to hear 'Il Trovatore' last night."  
"Fine opera!"  
"Oh, shucks, man, the hand organs have been playing them tunes for years! I recognized 'em all."—Pittsburgh Post.

**Hard Natures.**  
There are morose hard natures in which cheerfulness cannot be planted or engrafted. Such natures are like shadows of life—the clouds that blot out from our view the beautiful sun.

**Making Faces.**  
Sauce—I saw a man in a window making faces today. Symple—What was he doing that for? Sauce—For a couple of clocks. He is a jeweler.—London Mail.

The headquarters of the National Democratic Congressional Committee may be transferred from Washington to Chicago.

### MANY ATTEND UNION SERVICE AT CENTENARY GOOD FRIDAY

Seven Jacksonville Ministers Give Short Sermons Suggestive of Sayings From Cross.

The Union service Friday afternoon at Centenary church was well attended and the sermons of the seven ministers who took part were deeply spiritual. The time was from 12 until 3 o'clock, the period during which it is supposed that Christ was on the cross and the whole program was in accord with the spirit of these trying hours.

"The Seven Sayings from the Cross" was the subject of the meeting, discussed in the order of their utterance by Rev. Messrs. Miller, French, Theobald, Morey, Harker, Davis and Spooners. Rev. Clyde Darsie, Rev. H. E. Cusic, Rev. W. A. Boyd and Rev. R. O. Post were present and assisted in the services.

"The Mercy of the Cross" was the subject of the first address, made by Rev. J. W. D. French took as his text, the second saying, "Verily I say unto thee, today thou shalt be with me in Paradise," and spoke on "The Promise of the Cross." The fourth utterance voiced the despair of the Master when all seemed lost. "My God, Why hast thou forsaken me," formed the basis of a talk by Dr. A. B. Morey on "The Darkness of the Cross." Dr. J. R. Harker discussed "The Suffering of the Cross." In John 19:28, Jesus is quoted as saying to the multitude, "I thirst." "It is finished," said Jesus when the end was near and it was upon this sentence that Rev. L. H. Davis based his words upon the "Triumph of the Cross." In the seventh and last word was voiced the peace of the Cross when the Christ voiced the sentence, "Father, into thy hands I commend my spirit" and it was from these words that Rev. W. E. Spooners took his text.

Miss Clara Ranson was leader of the singing and director of the music. A quartet composed of Mrs. Charles Glossup, Miss Ranson, A. C. Metcalf and T. H. Rapp sang "Stabat Mater." Solos were sung by Miss Ranson and Miss Nellie Self. Rev. H. F. Cusic made the opening prayer and Rev. R. O. Post pronounced the benediction.

**MRS. ELIZABETH OSBORNE DIES THIS MORNING.**  
Mrs. Elizabeth Osborne, who suffered a paralytic stroke recently, passed away at 12:30 this (Saturday) morning at her home, 1228 West College avenue. Mrs. Osborne was the widow of Robert T. Osborne and was over 75 years old. A suitable obituary will appear later.

The finest display of blooming plants ever seen in Jacksonville now at Hehl's.

**SEATON WILL JOIN BROOKLYN.**

Knoxville, Tenn., April 10.—Pitcher Thomas Seaton came to terms with Walter S. Ward, secretary-treasurer of the Brooklyn Federal league club today and will join the Brooklyn club at Pittsburgh Monday. Under the agreement Seaton will receive a salary of \$8,500 a year for three years.

Seaton was signed by Manager Tinker, but when the Federal players were distributed he was awarded to the Brooklyn club. He expressed a wish to play with Chicago and declined to join the Brooklyn club.

Candidates to succeed Isaac Stephenson in the United States senate will be nominated at the Wisconsin State primaries early in September. Among those who are expected to get into the race are Governor McGovern and Lieutenant Governor Morris, both of whom aspire to the Republican nomination, and John A. Aylward, who seeks the Democratic nomination. Senator Stephenson has not announced whether he intends to become a candidate for re-election.

The Democratic State convention soon to be held in Indiana is expected to consider an act upon a proposal to adopt the state wide primary system. President Wilson and Secretary Bryan have endorsed the proposal.

## "MONARCH"

Quality counts. It has made "MONARCH" what it is—the LEADER in food products.

### SEALED ORDERS

War between Mexico and the United States threatens. Herrera, minister of war of Mexico, has his secret service scattered at points throughout the United States and selects Arturo Velarde, who, with his sister, Elena, has been identified with the secret service, to go to San Francisco under guise of a yachting cruise and there get such information regarding the movements of the Pacific fleet. Herrera gives Velarde a letter of introduction to Lieutenant Donald Spier of the U. S. S. "Deaver" whom he had met in earlier days before possibility of trouble had developed. Arturo and his sister set sail on their steam yacht "Lucero" and in due time arrive at San Francisco bay where most of the Pacific fleet is stationed. They go aboard the "Deaver" and present their letter of introduction to Lieutenant Spier upon whom Elena's charms make a profound impression. The acquaintance between the two is, however, suddenly interrupted by reason of Spier receiving an order to proceed at once to Washington. From this point political intrigue weaves a snare by which the helpless girl is compelled to connive in a plot which nearly costs the life of herself and her lover. During a naval battle Elena learns that when in the heart of a Mexican, love and duty clash, duty must give way. Brought together during the conflict the seeds of love are sown in fruitful soil which later yields its harvest under the balmy skies of sunny Mexico.

Mr. and Mrs. Oral Johnson returned Friday morning to their home in Hastings, Neb., after a visit with relatives of Mrs. Johnson in the neighborhood of Prentice and with her cousin, Mrs. Charles E. Grady.

George Vannier of Scott county was a visitor in Jacksonville yesterday. Mr. Vannier is very much interested in the "Ocean to Ocean" road project and was here to interview a number of Jacksonville men who are working for good roads. He hopes that some sort of an organization can be perfected for aiding in the proposed road.

## TO BEGIN FORWARD MOVEMENT IN COUNTY SUNDAY SCHOOLS

Local Workers to Start Campaign Next Week Under Direction of International Committee — Plans Made at Banquet Friday.

The Sunday schools of Jacksonville and Morgan county are to enter into a strenuous campaign for funds to forward the state and local work, according to plans made Friday evening at a luncheon held at the Peacock Inn.

At this luncheon were present the Morgan county Sunday school officers and Frank E. Mayer of Chicago, business manager of the International Sunday School association. It is planned to raise \$1,500 in a three day campaign.

The work will be in charge of an executive committee composed of George T. Douglas, W. J. Brady, A. C. Metcalf, G. H. Merrill, C. L. De Pew and Carl H. Weber. The plan calls for a full team of fifty-five men. Each member of the executive committee selects two captains and each captain selects a team of four. The works will hold daily conferences throughout the campaign.

With the proceeds of the campaign it is planned to organize in Jacksonville a community training school for Sunday school teachers and officers. The county officers are also working on a plan of co-operation with the State Teachers' association in a program of religious education. Sunday school instruction will be brought to a standard commensurate with high school work and credit will be given students by high school boards.

Mr. Mayer will return to the city Tuesday and active work will begin Wednesday, April 15. Similar campaigns have been completed or are in progress in Springfield, Decatur, Moline, Rock Island, Bloomington and Elgin.

Morgan county is one of the strong units of the Illinois Sunday School association and this effort to forge to the front should receive strong support. The Sunday school work in the country as a whole is of large dimensions. In Illinois alone there are over 8,000 Protestant schools with 100,000 officers and teachers and over 1,000,000 members.

EXCELLENT BARGAINS OFFERED TODAY IN ALL OUR DEPARTMENTS. J. HERMAN.

THEY CAME IN AUTOS.

Louis Korty of the Merritt neighborhood with his family drove to the city yesterday in a Ford car. They found the road a little rough in places, but with very few mud holes. Dragging was being done in several localities and unless there is rain the roads will be in excellent condition Sunday.

Arthur Acom, also drove to the city in a Ford, coming from seven miles northwest of the city and found the roads in fairly good condition.

MEMBERS OF REBEKAH LODGE GIVE COMICAL PLAY

Stage "Fun in a Theatrical Office" in a Talented Manner Before Large Number.

A cast of characters from Rebekah Lodge No. 13, gave an unusual evening of entertainment, in the I. O. O. F. hall on East State street Friday night, when they staged a play entitled, "Fun in a Theatrical Office." Every part was well taken and the many humorous situations kept the large number of members present in a continuous uproar of laughter. Preceding the play a quartet composed of Misses Grace McCarty, Fern Haigh, Amelia Carlson and Edith Carlson sang a humorous number. The entertainment was under the auspices of the April committee consisting of Miss Grace McCarty, president, and Misses Fern Haigh, Edith Carlson, Minnie Alkire and Pearl Jaeger.

The scene of the play was a manager's office, where he tried out amateurs and professionals, who desired a position with the Loud Theatrical agency. The finale of the play was a song by the entire chorus.

The characters in the play follow:

Luke Loud, a theatrical agent—Otis Erney.

Bat, his office boy—Edith Carlson.

Clara Vere De Vere, his stenographer—Minnie Scott.

Miss Carr, his pianist—Pearl Jaeger.

Ladies.

Mrs. Susan Suffreno Riser—Miss Alkire.

Miss Anise Elderblom—Esther Carlson.

Madame Sylva—Fern Haigh.

Mrs. Bridget Casey—Maude Haxton.

Mme. Carmencita—Grace McCarty.

Gentlemen.

Pietro—Hianaco—Walter Brown.

George Washington Lincoln—Earl Bowen.

Mrs. Rulethe Roost—Allen Taylor.

Buy your Easter suit and hat of Breckon & Jenkinson.

WESTMINSTER GUILD.

Westminster Guild, a missionary organization of the young women of that church, met Friday afternoon with Miss Ruth Miller at her home on West North street. There was a large attendance of members and the occasion was one of very special interest. Mrs. W. S. Jones was the leader of the afternoon and gave a study of "Ruth," which was unusually helpful.

THE BIRTH RECORD.

Born, Friday morning to Mr. and Mrs. Frank Boatman, an 8½ pound son.

Mr. and Mrs. Clark Stevenson of Orleans were among the Friday visitors in the city.

## FOREST NOTES.

The tenth successive year without a forest fire has just been passed by the Powell national forest in south central Utah.

Yellow poplar, or tulip tree, the largest broadleaf tree in America, has been known to reach nearly 200 feet in height and 10 feet in diameter.

Pennsylvania has about 7,500,000 acres of timber land, one-eighth of which is owned by the state. The total value of the state's timber is \$139,000,000.

Mistletoe thrives on the western coasts to an extent not approached in the east. In many places this parasitic growth is responsible, directly or indirectly, for a considerable loss of timber.

Forest officers in Washington and Oregon plan to discontinue the use of barbed wire on their forests. This will affect their own pastures and public drift fences. They say barbed wire has no advantage of smooth wire, that it injures stock, and that it is more likely to be borne down by soft snow. Stockmen on the Ochoco forest, in Oregon, recently constructed drift fences of smooth wire, though with some misgivings; now they say they will never use barbed wire again.

The many satisfied hat customers speak volumes for the quality of hats and courteous salesmanship given by FRANK BYRNS' Hat Store.

SHIPPED TRIO OF DUCKS.

Miss Jean LaRue of 1515 South Main street shipped a trio of Fawn Indian Runner ducks Friday. They were prize winners at the recent Morgan County Poultry show and brought a good price.

## BAPTIST ASSOCIATION MISSIONARY MEETING

Semi-annual Gathering of Morgan, Scott and Cass Counties to be held at First Baptist Church, April 16th.

The program has been completed for the Semi-Annual Baptist Association Missionary meeting of Morgan, Scott and Cass counties which will be held at the First Baptist church of this city April 16 as follows:

Afternoon 2:30.

Devotional—Mrs. G. P. Richardson.

Hymn.

Address of Welcome.

Response.

Business Session.

Duet selection—Mrs. Shuit and Mrs. Barrows, Waverly.

"Chinese in the United States"—Mrs. Burnett, Pisgah.

Missionary discussion.

If you had \$500,000 to spend for missions in China would you put it in—

Evangelistic work—Mrs. J. P. Brown.

Educational work—Mrs. E. O. Mayer.

Medical work—Mrs. A. B. Williamson.

Solo—Selected—Mrs. Fred Walbaum, Ashland.

Address—Miss Burton, Chicago.

Piano duet—Misses Jackson and Pyatt.

Evening Session 7:30.

Hymn.

Devotional—Mrs. Isaac Coleman.

Violin solo—Miss Jensen, Conservatory of Music.

Illustrated Lecture—"In and Around Jerusalem"—Samuel W. Nichols.

Vocal solo—Miss Beebe, Illinois Woman's College.

Benediction.

Men's new style 4 in hand de puff, 50c. FRANK BYRNS' Hat Store.

### HAVE ATTRACTIVE EXHIBITS.

A number of the merchants on the square have Easter window exhibits which are attractive on account of novelty as well as beauty. Very noteworthy is the window display of artificial wild fowl at Frank Byrns' hat store. The "birds" are continually in motion and the strange appearance of the window has caused much comment. Carl S. Hillerby has a pretty collection of Easter goods shown among artificial floral decorations which were furnished by the Smith millinery store. The white rabbits at the J. Bart Johnson Music store attracted considerable attention Friday as did the Webster Ornaments at the hardware store of H. L. & B. W. Smith. C. A. McHatten has an ingenious exhibit in the Schmalz grocery window, consisting of a house surrounded with a natural lawn. There are various other window exhibits too which indicate the artistic taste of store proprietors and decorators.

### HAS MOVED RESIDENCE.

G. A. Sieber, who recently sold his property at 730 Hardin avenue, has completed moving to his newly acquired home at 1019 Grove street.

### (Official Publication.)

REPORT OF THE CONDITION OF The Farmers' State Bank and Trust Company, located at Jacksonville, state of Illinois, before the commencement of business on the 4th day of April, 1914, as made to the auditor of public accounts of the state of Illinois pursuant to law.

### Resources.

A. L. FRENCH, A. C. RICE, CHAS. F. LEACH, Directors.

## COURT NEWS

### Added Circuit Court Docket.

Mary E. Swain by her solicitor, M. T. Layman Friday filed suit for foreclosure against Samuel C. Latham et al. The complainant represents that on April 1, 1909, the defendants being indebted to the complainant in the sum of \$4,000 for money before that time loaned; executed to said complainant their promissory note in writing that five years after date they promised to pay the complainant said \$4,000 and interest of five per cent per annum. Real estate in the N 1-2 SE 1-4 of section 11, township 16, range 9, was mortgaged to secure payment of the loan. The complainant declares that nothing has been paid her since April 1, 1911. Samuel C. Latham, Lillie C. Latham, Silas Hexter, Hattie E. Virgin as executrix of the last will and testament of William J. Latham, deceased, and the Practice Farmers' Elevator Co., are partly interested in this real estate and are made parties defendants to the bill.

### Probate Court News.

In the matter of the estate of John Thomas Finch. Report approved.

In the matter of the estate of James H. Caldwell. Petition for letters testamentary heard and allowed. Petition for probate of will heard and allowed.

In the matter of the estate of Frank Deters. Inventory approved.

### Real Estate Transfers.

Edmund M. Tindall to Albert A. Curry, warranty deed, part W 1-2 SW 1-4 4-14-9. \$2100.

Cake market at Johnson & Hackett Saturday, April 11th.

TO SING FOR CONSERVATORY SCHOLARSHIP FUND.

Mr. Marcus Kellerman, baritone, who is giving a song recital next Monday evening in State Street church should prove a strong drawing card to Jacksonville's musical public. Not only is he an artist of the first rank, possessing every qualification that a great singer must have, but he is giving his services entirely without charge, wishing to help raise a scholarship fund for the Conservatory. It is characteristic of the man, whose generous, sympathetic nature has been evidenced many times by similar acts, his desire always being to help poor and ambitious music students. It is a significant fact that Charles Taft, the brother of the ex-president, found Mr. Kellerman's voice so well worth while that he paid for five years of his musical education, in this country and abroad, bringing him to the point where his success was assured. Hence his sympathy for struggling students.

It was through Mr. Kitch, director of the conservatory, who was an intimate friend of Mr. Kellerman in Berlin, that he found the need of a scholarship fund here, and when he visited Jacksonville last spring he made the offer to give a concert here this season and help raise money for that worthy purpose. Tickets are on sale at Brown's music store, prices \$1.00 and \$1.50.

STRAWN GROVE SCHOOL CLOSING.

Strawn Grove school, southwest of the city, closed a successful year Friday with a dinner for the parents and children at the school house at noon and a program afterward. The dinner was greatly enjoyed and the program, which was in keeping with the Easter season, was most entertaining. The program closed a series of semi-monthly programs which have been given by the children during the school year, and which has been a source of great pleasure and instruction to all.

Miss Connolly has proven herself a capable and efficient teacher during the three years she has taught this district and every hope is entertained that her services will be secured for next year.

Breckon & Jenkinson for suits, hats and men's furnishings.

STOMACH SUFFERERS! READ THIS

So many stomach sufferers have been benefited by a simple prescription of vegetable oils which cured a Chicago druggist of chronic stomach liver and intestinal trouble of years' standing that we want you surely to try this remedy. It is known as Mayr's Wonderful Stomach Remedy. One dose will convince you. It usually gives wonderful relief within 24 hours—even in the most stubborn cases. Mayr's Wonderful Stomach Remedy is now sold here by Arm-

WILL GIVE CANTATA.

An Easter cantata entitled "Jesus and the Children" will be given at the Woodson Christian church Sunday morning at 10 o'clock. The public is invited to attend.

Greatest assortment of Easter neck wear on the market is now shown by FRANK BYRNS' Hat Store.

Melvin Smith, Nathan Neal, Walter Houston and David Henderson were Jacksonville visitors yesterday from the Arcadia neighborhood.

TO THE PUBLIC.

EVERY POSSIBLE APPOINTMENT HAS BEEN MADE FOR PROMPT DELIVERY FOR EASTER BUSINESS.

A Cure for Sour Stomach.

Mrs. Wm. M. Thompson, of Battle Creek, Mich., writes: "I have been troubled with indigestion, sour stomach and bad breath. After taking two bottles of Chamberlain's Tablets I am well. These tablets are splendid—none better." For sale by all dealers.—Adv.

## MONEY

It's MONEY that does the business

Get this one truth firmly fixed in your mind to start with:

The man who pays cash saves more than 20 per cent and gets better goods and service than the man who runs a book.

Prove this for yourself by getting prices from the advertised bargains at the cash store and comparing them with what you have been paying on charged accounts.

Come and start a credit with us and we will loan you the MONEY to pay cash for everything and after you have once established a credit with us you can get MONEY on a moment's notice.

EVERYTHING STRICTLY CONFIDENTIAL

Call, Write or Phone Ill. or Bell 449 and our agent will be pleased to call at your residence and explain our liberal plan.

JACKSONVILLE CREDIT COMPANY

## Mothers Tell of Mother's Friend

Experience is or should be our best teacher. Women who have obeyed the highest and noblest of all sacrifices, the struggle for the life of others, should have a better idea of helpful influence than those who theorize from observation.

At any rate when a prospective grandmother urges her daughter to do as she did—to use "Mother's Friend," there is ample reason to believe it the right kind of advice.

"Mother's Friend" is an external application for expectant mothers. Its purpose is to furnish placency to the muscles, to take away the strain on the cords and ligaments, to relieve the tension of nerves and tendons so apt to provoke or aggravate nausea, morning sickness, twitches of the limbs and so on.

Although, in the nature of things, a woman would use "Mother's Friend" but rarely, yet so effective has it been found that this splendid remedy is on sale in most drug stores throughout the United States. It has been prepared by Bradford Regulator Co., 506 Lamar Bldg., Atlanta, Ga., and advertised by us for over forty years. This is a fine record for such a special remedy and the grateful letters received to-day are just as appreciative as were those of years ago notwithstanding that methods are supposed to have greatly advanced. Ask at the drug store for a bottle of "Mother's Friend." It is worth while.

What is said herein of "Mother's Friend" is but a repetition of the thoughts expressed by thousands of happy mothers who have successfully used this splendid external application.

## RESERVE CLAUSE IS HELD TO BE INVALID

COURT DENIES APPLICATION OF FEDERAL LEAGUE FOR INJUNCTION.

Organized Baseball Wins Suit to Retain William Killifer With Philadelphia National League Club—Clause Was Considered Bulwark of Organized Professional Baseball.

Grand Rapids, Mich., April 10.—The reserve clause in the contracts of organized baseball players was held to be invalid and unenforceable in a decision handed down today by Federal Judge Clarence W. Sessions, denying the application of the Chicago Federal League club for an injunction to restrain Catcher William Killifer from playing with the Philadelphia National club.

Contracts of such nature were held by Judge Sessions to be "lacking in the necessary qualities of definiteness, certainty and mutuality."

"A contract exists," says the decision, "but if broken by either party the other is remediless because the courts are helpless to enforce its performance or to award damages for its breach."

Judge Sessions denied the application because he said the plaintiff knew Killifer was under a moral, if not legal obligation to play with the Philadelphia club when it induced him to repudiate his obligation by offering him a longer term of employment and much larger compensation.

"In so doing a wilful wrong was done to the Philadelphia club which was none the less grievous and harmful because the injured party could not obtain legal redress," says the court.

The conduct of both Killifer and the Federal League club was "tainted with unfairness and injustice if not actionable fraud," in the opinion of Judge Sessions.

After asking the question, "are the plaintiffs in court with clean hands," the court answers it with the negative ruling that the action for an injunction must be denied, not because there are any inequities in Killifer's favor which excuse or exempt him for performance of his engagements and not because the merits of the controversy are with the Philadelphia club but solely because the actions and conduct of the plaintiffs do not square with one of the vital and fundamental principles of equity.

Cannot Understand Decision.  
Knoxville, Tenn., April 10.—Charles Weeghman, who is here today with the Chicago Federal League team of which club he is president was shown the decision and said:

"I anticipated such a decision. The loss of Killifer will in no way injure the Chicago club, because we have just as good catchers. If the reserve clause is not valid, why did we come into court with 'unclean hands'? I cannot understand such a decision. We have not come to any agreement with Tom Seaton but expect to late today."

No Surprise to Herrmann.  
Cincinnati, O., April 10.—Expressing no surprise over the decision of Judge Sessions in the Killifer case at Grand Rapids today and contending that the contracts now in vogue differ materially from the one upon which Judge Sessions made a ruling, August Herrmann, chairman of the National Baseball commission today issued the following statement:

"This ruling is not in the nature of a surprise to my associates and myself for the reason that the defects pointed out by Judge Sessions have been remedied in 1914 contracts. It is quite natural that the judge's comment that he who comes into a court of equity must come with clean hands should be pleasing to organized baseball, because it serves a notice on all parties that a disregard of the moral or contractual obligations of a player to his club will not be permitted."

Favors the Federal League.  
Chicago, April 10.—Judge Sessions' statement regarding the reserve rule makes legal the claim of the Federal League on practically one hundred ball players on its roster according to officials of the league here.

Except Earl Hamilton the pitcher who "jumped" a St. Louis American contract to join the Federals and one or two others, all the players now in the Federal organization were held to their former league affiliations only by the reserve rule.

President Gilmore, besides saying that the verdict indicated a victory for the Federals and that they possibly would appeal the case, declined to talk much about it. News of the decision was received by him just as he left for New York.

Bulwark of Organized Baseball.  
The reserve clause, bulwark of the organized professional baseball, came into being in 1880 when the National League adopted a by-law which retained a player's services indefinitely to a club with which he signed a contract.

In 1882 when an alliance was formed by the National League, American association and Northwestern League, the reserve clause was retained as one of the rules. It was decided later that the contract was illegal because it gave the player no rights under the contract. It was then—about 1890—that the "ten day notice" was inserted upon legal advice. This made it necessary for a magnate to give a player ten days' notice of release.

Results of Friday Games.  
Kansas City, Mo., April 10.—"Cy" Morgan and Reagan were in mid-season form today and Kansas City shut out the first team of the Chi-

## Hard Work

By WALT MASON.

It's hard to swat the lyre redhot, and keep the blamed thing twanging, when you've got a cold, with aches untold, around your brain pan hanging. I have the grippie, and bark and yip, until I scare the neighbors, still I must do, the long day through my "literary" labors. My lungs are lams and all my frame seems sore and dislocated; my knees in anguish unabated. Yet I must raise my loosed lays, some optimism springing, and urge the toffs who have no coughs to keep on dancing, singing. My eyes are red, my aching head, feels like a football seedy, and when I speak my pulleys creak, my voice is hoarse and weedy; I sob, I pant, kerchoo, and rant, I whoop and squeak and strangle, my works are pung throughout my trunk, my nerves are all a-jangle. I punch the lyre but here's no fire on rapture in my swatting; the winged steed is lame indeed, and stumbles when he's trotting. Don't roast too hard the haling bard, or load him down with cursin'; you do not know how much of woe he may have on his person.

I cough and sneeze and bite my knees in anguish unabated. Yet I must raise my loosed lays, some optimism springing, and urge the toffs who have no coughs to keep on dancing, singing. My eyes are red, my aching head, feels like a football seedy, and when I speak my pulleys creak, my voice is hoarse and weedy; I sob, I pant, kerchoo, and rant, I whoop and squeak and strangle, my works are pung throughout my trunk, my nerves are all a-jangle. I punch the lyre but here's no fire on rapture in my swatting; the winged steed is lame indeed, and stumbles when he's trotting. Don't roast too hard the haling bard, or load him down with cursin'; you do not know how much of woe he may have on his person.

Rheumatic Pains Relieved.

Why suffer from rheumatism when relief may be had at so small a cost? Mrs. Elmer Hatch, Peru, Ind., writes, "I have been subject to attacks of rheumatism for years. Chamberlain's Liniment always relieves me immediately, and I take pleasure in recommending it to others." 25 and 50 cent bottles. For sale by all dealers.—Adv.

ROADS GETTING BETTER.

The high wind of yesterday went a long way toward drying the roads and in some places they are very smooth. Oral Rees made a trip from Franklin yesterday on a Harley-Davidson motorcycle and stated that most of the way he could travel at a good rate of speed. In some parts of the county where the roads have been dragged the effects of the improvement can readily be noted.

THIRTY TAKE EXAMINATION.

Thirty young people from all parts of the county were in the city Friday to take the teachers' examination in the office of Superintendent Montgomery. The giving of the examination will be continued to-day.

FUNERAL NOTICE.

The funeral of Miss Ada Slaughter will be conducted this afternoon at 2:30 o'clock from the family residence, 221 East College street, in charge of Rev. Clyde Darsie. Interment in Diamond Grove cemetery.

## CITY'S SCHOOL CHARTER ADOPTED FORTY-SEVEN YEARS AGO

Original Act Was Amended Two Years Later—No Charters Granted After State Constitution Was Adopted.

(Continued from April 10.)  
The Jacksonville charter was granted in 1867 and amended in several particulars in 1869. No charters were granted after the adoption of the state constitution in 1870. As very few citizens are familiar with all the provisions of the charter it will be reprinted in the Journal in two or three installments. The copy is taken from a book of city laws compiled in 1884 by H. C. Dummer.

7. Funds Necessary for School Purposes.—Ibid Sec. 6. It shall be the duty of said board of education and they shall have full power to determine the amount of money needed and to be raised for such purposes over and above the amount for the school funds hereinbefore enumerated, or from other sources: Provided, said board shall not, for any one year, require to be raised more than one per centum for the benefit of said schools on the assessed value of the real and personal property of said city for each year, without a majority of the voters of said city authorize them to do so at an election to be held for that purpose, at such time, and conducted as the board may direct, nor shall said board of said city council make any loan whatsoever for school purposes without a previous authority by such vote; but with a concurrence of a majority of such voters it shall be lawful to raise such sum, either by taxation or loan, as said board may see proper; and before the first day of August of each year they shall determine the amount required to be collected by taxation for expenditure for one year from the first day of January next ensuing, for school purposes generally, and certify the amount to the city council of Jacksonville.

8. Council to Arrange for Collection of funds. Ibid Sec. 7. It shall thereupon be the duty of the city council to levy said sum, or so much thereof as they shall deem necessary, on all the real estate and personal property of said city, according to the assessments and valuation thereof for the current year, equally by a certain rate per centum, and collect the same as city taxes are collected. A special column, shall be prepared in the city duplicate, headed "school purposes," in which shall appear the amount of tax for school purposes chargeable against each parcel of real estate, or amount of personal property, and when said taxes are collected the treasurer shall keep a separate account of the same, and they shall be used and applied for school purposes only, and shall be paid only on the order of said board.

9. Must Act in Accordance With State Laws. Ibid Sec. 8. It shall be the duty of the board to cause an abstract of the whole number of children under the age of twenty-one years within said district to be made, and furnish the same, with such further information as is required in Sections 26 and 79 of an act to establish and maintain a system of free schools, approved February 16, 1847, to the school commissioner of Morgan county, Illinois, within ten days after the same shall have been ascertained, and the school commissioner shall pay annually to said board, for the exclusive use of said district, the amount the district is entitled to receive from the funds that are or may be in his hands subject to distribution for the support and benefit of the schools in said county, in accordance with the provisions of the free school law now in force, the same as if no special charter had

## WAS MISERABLE COULDN'T STAND

Testifies She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Lackawanna, N. Y.—"After my first child was born I felt very miserable and could not stand on my feet. My sister-in-law wished me to try Lydia E. Pinkham's Vegetable Compound and my nerves became firm, appetite good, sleep elastic, and I lost that weak, tired feeling. That was six years ago and I have had three fine healthy children since. For female troubles I always take Lydia E. Pinkham's Vegetable Compound and it works like a charm. I do all my own work."—Mrs. A. F. KREAMER, 1574 Electric Avenue, Lackawanna, N. Y.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled. It may be used with perfect confidence by women who suffer from displacements, irregularities, periodic pains, headache, bearing-down feeling, flatulency, indigestion, dizziness, or nervous prostration. Lydia E. Pinkham's Vegetable Compound is the standard remedy for female ills.

Women who suffer from those distressing ills peculiar to their sex should be convinced of the ability of Lydia E. Pinkham's Vegetable Compound to restore their health by the many genuine and truthful testimonials we are constantly publishing in the newspapers. If you want special advice write to Lydia E. Pinkham Medicine Co. (care of) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

been conferred upon the schools of the city of Jacksonville.

10. Council May Borrow Money for School Purposes. Ibid Sec. 9. The city council of the city of Jacksonville are hereby vested with full power to borrow such sums of money, being subject to the restriction contained in the seventh section of this act, as they may deem necessary for school purposes in said district, at a rate of interest not exceeding ten per centum, which may be made payable semi-annually, at such place as may be agreed upon, and the money, when so borrowed, shall be placed under the control of the board of education.

11. Treasurer and Clerk of Board. Ibid Sec. 10. The treasurer and clerk of the city of Jacksonville shall be treasurer and clerk of the board of education, and the board shall determine their duties, compensation and amount of security to be given.

12. Funds Not Needed to Be Loaned. Ibid Sec. 11. Said board shall cause all funds not needed for immediate use to be loaned at the rate of ten per cent per annum, payable semi-annually in advance. No loan shall be made for a longer period than five years, and if exceeding one hundred dollars, shall be secured by unencumbered real estate of at least double the value of the loan, without estimating probable improvements. For any sum of one hundred dollars and under, good and satisfactory personal security may be taken.

13. Borrower to Pay Expenses. Ibid Sec. 12. All notes and securities shall be to the board of education for school purposes, and the borrower shall be at all expenses of examining titles, preparing and recording papers.

14. Priority of Claim. Ibid Sec. 13. In settling the estate of de-

ceased persons, debts for school purposes shall be preferred to all others, except those attending the last illness of the deceased and the funeral expenses, including the physician's bill.

## CATTLE MARKET FAR FROM SATISFACTORY

DEMAND APPEARS TO BE OF AN EXTREMELY INDIFFERENT CHARACTER.

Unemployed Labor Said to Be Largely Responsible for Present Conditions, Although Foreign Beef Is One Factor—Eleanor, Ill., Shipper Tops Chicago Market Thursday With \$8.87 1/2.

A comparison of values with those of a week ago reveals a little improvement in the cattle situation, but except for the extremely light supplies this week there would have been no improvement at all. Foreign beef is to some extent responsible for this situation, but greater responsibility lies in the fact that so many laboring men are out of employment.

Hog receipts on Monday were 35,721 with \$8.90 as the top. Tuesday's receipts were very light, numbering only 13,559. Top on that day reached \$8.8 1/2, and later trade was draggy with all of the early strength being lost, some hogs went over unsold. Wednesday receipts were estimated at 18,000 with the top at \$8.90.

The shorn grades in the sheep and lamb market have moved slowly, buyers being slow to make bids. Prime handy lambs are quotable up to \$7.00. There have been but few shorn sheep on the market.

Clay, Robinson & Co., commission merchants, issue the following letter in regard to the week's market movements:

**Cattle Market Letter.**  
Chicago, April 9.—Following the strength the cattle market developed Thursday and Friday last, a larger run was anticipated Monday than was received, only 15,800 arriving. In spite of that fact, however, the market was far from satisfactory; good to choice kinds were practically steady at last week's closing rates, but the less desirable grades of killing steers were about 10c lower. The market dragged and it was late before a clearance was made.

Tuesday's receipts were only 2,561 and the market was of the customary quiet character of that day of the week.

Fresh arrivals yesterday were only 11,500, making less than 30,000 for the three days, one of the most moderate supplies the market has known in normal times for a long day. Reluctantly buyers had to grant some concessions, most sales showing 10 to 15c improvement over Monday. The quality of the offerings was rather good, there being quite a string of sales, when the small extent of the supplies is considered, at \$8.75 to \$9.00; the extreme top was \$9.45. One load of prime yearlings of 1,100 pounds average sold at \$9.35. The market was the best seen for some little time, but as said above it was purely the result of unexpectedly light supplies compelling buyers to scramble to fill orders.

The receipts of cattle today were estimated at 4,000. The market ruled strong to 10c higher on both steers and butcher stock, the general trade being the most satisfactory for some little time, so far as general prices were concerned.

A comparison of values today with those of a week ago reveals a little improvement at least, but in our opinion, except for these remarkably light supplies, there certainly would have been no improvement at all. The demand is of an extremely indifferent character. Foreign beef is still held responsible and of course is to a certain extent, but unemployed labor is unquestionably most largely responsible for present conditions.

It will require a continuance of moderate supplies to hold the market on its present basis, and as there is little probability of any material enlargement of receipts, it looks as if the present standard of prices would be pretty well sustained. As we have repeatedly advised, we believe in letting any and all cattle come as ready; in other words hold back nothing in the expectation that prices are going to advance. At the same time we do not believe in sending in half fat stuff as there is a wide margin between these and the well matured kinds, quality and flesh being the prime consideration just now. The outlook for next week is quite fair.

The butcher stock market is practically 25c higher this week. Receipts of this class have been exceedingly small.

The run of hogs was 18,000. That market ruled weak to 5c lower, extreme top being \$8.85.

**Eleanor Hogs Top Market at \$8.87 1/2.**  
Chicago, April 9.—The receipts of hogs here today were estimated at 18,000 and with 5,000 carried over from yesterday, the market opened weak to a shade lower and ruled that way throughout the day. The top was \$8.87 1/2, secured by us for 68 hogs, averaging 216 pounds, shipped by Paine Bros., Eleanor, Ill. The bulk of the good hogs sold from \$8.75 to \$8.85; mixed hogs from \$8.65 to \$8.75. There was no change in the top pig or rough packer situation. We look for light receipts again tomorrow and not much change in the market.

**Native Beef Steers.**  
This week opened with the moderate run Monday at 15,797. The River markets also reported only fair receipts, Kansas City having 8,000. In spite of this however, the market was far from satisfactory. Good to choice cattle were practically steady with the close of last week, but the commoner kinds were 10 to 15c lower. Extreme top was \$9.50, paid for 47 head of 1,301-lb. heifers. It was a dull, draggy, trade throughout.

sales showing 10 to 15c improvement over Monday. The quality of the offerings was rather good, there being quite a string of sales, when the small extent of the supplies is considered, at \$8.75 to \$9.00; extreme top was \$9.45. One load of prime yearlings of 1,100 lbs. average sold at \$9.35. The market was the best seen for some little time but, as said above, it was purely the result of unexpectedly light supplies compelling buyers to scramble to fill orders.

With those of a week ago reveals a little improvement at least, but in our opinion, except for these remarkably light supplies, there certainly would have been no improvement at all. The demand is of an extremely indifferent character. Foreign beef is still held responsible and of course is to a certain extent, but unemployed labor is unquestionably most largely responsible for present conditions.

It will require a continuance of moderate supplies to hold the market on its present basis, and as there is little probability of any material enlargement of receipts, it looks as if the present standard of prices would be pretty well sustained. As we have repeatedly advised, we believe in letting any and all cattle come as ready; in other words hold back nothing in the expectation that prices are going to advance. At the same time we do not believe in sending in half fat stuff as there is a wide margin between these and the well matured kinds, quality and flesh being the prime consideration just now.

**BEEF STEERS.**  
Choice to prime steers, 1500 to 1600 lbs. \$9.35 @ 9.60.  
Good to choice steers, 1300 to 1450 lbs. \$8.90 @ 9.25.  
Medium to good steers, 1250 to 1350 lbs. \$8.40 @ 8.75.  
Plain to fair short-fed steers \$7.80 @ 8.25.  
Poor to plain steers \$7.25 @ 7.70.

**YEARLING STEERS.**  
Extra choice to prime yearling steers \$8.65 @ 8.90.  
Good to choice yearling steers \$8.50 @ 8.90.  
Medium to good yearling steers \$8.25 @ 8.50.  
Plain to fair yearling steers \$7.85 @ 8.15.  
Common yearling steers \$7.25 @ 7.75.

**STAGS.**  
Good to choice stags \$7.50 @ 8.00.  
Plain to medium stags \$6.50 @ 7.25.

**BUTCHER STOCK.**  
**HEIFERS.**  
Prime to fancy yearling heifers \$8.25 @ 9.00.  
Good to choice heifers \$7.50 @ 8.00.  
Fair to good heifers \$6.75 @ 7.25.  
Common to plain heifers \$5.50 @ 6.50.

**COWS.**  
Extra choice to prime cows \$7.25 @ 7.85.  
Good to choice cows \$6.25 @ 7.00.  
Plain to fair cows \$5.40 @ 6.15.  
Fair to good cutters \$4.65 @ 5.25.  
Common to good canners \$3.75 @ 4.50.

**BULLS.**  
Good to prime butcher bulls \$7.00 @ 7.50.  
Plain to medium butcher bulls \$6.50 @ 7.75.  
Good to choice bologna bulls \$6.20 @ 6.40.  
Common to medium bologna bulls \$5.50 @ 5.75.

**CALVES.**  
Prime vealers \$9.50 @ 9.75.  
Good to choice vealers \$9.00 @ 9.25.  
Poor to fair vealers \$8.00 @ 8.50.  
Good to choice heavy calves \$7.00 @ 7.50.  
Poor to fair heavy calves \$5.00 @ 6.00.

**MILKERS AND SPRINGERS.**  
Choice to prime \$65.00 @ 70.00.  
Medium to good \$50.00 @ 60.00.  
Common to plain \$40.00 @ 45.00.

**Stockers and Feeders.**  
The following quotations for stocker and feeder cattle, on Wednesday, are for assorted offerings, both as to quality and colors. In other words, the cattle which are bought at these prices are sorted up to suit the ideas and requirements of the buyers.

**FEEDERS.**  
Good to choice 1000 to 1100-lb. feeders \$7.75 @ 8.00.  
Fair to good 900 to 1000-lb. feeders \$7.50 @ 7.75.  
Good to choice 825 to 900-lb. feeders \$7.75 @ 8.00.  
Plain to medium 825 to 900-lb. feeders \$6.75 @ 7.25.

**STOCKERS.**  
Good to choice 700 to 800-lb. stockers \$7.75 @ 8.00.  
Fair to good 700 to 800-lb. stockers \$7.50 @ 7.75.  
Good to choice 600 to 700-lb. stockers \$7.75 @ 8.00.  
Fair to good 600 to 700-lb. stockers \$7.50 @ 7.75.  
Common to plain dairy breeds \$6.75 @ 7.00.

**FEEDING CALVES.**  
Good quality feeding calves \$8.00 @ 8.25.  
Fair to good feeding calves \$7.50 @ 8.00.

**SHEEP.**  
Good to choice 600 to 700-lb. heifers \$6.85 @ 7.25.  
Fair to good 600 to 700-lb. heifers \$6.50 @ 6.85.  
Fair to good young feeding cows \$5.85 @ 6.25.  
Good quality feeding bulls \$6.50 @ 6.85.  
Good spring heifers, 750 to 850 lbs. \$6.85 @ 7.25.

**Hogs.**  
Monday's receipts of hogs were 35,721, and, with liberal receipts in the east and lack of outside demand, the market here opened 5 to 10c lower, but closed strong. Top was \$8.90, paid for light weight shipping, and bulk of the good hogs sold from \$8.75 to \$8.85.

strong to 5c higher, but closed weak and fully 5 to 10c lower, with some hogs unsold. Top was \$8.90, which price we obtained for one load averaging 210 lbs. They were shipped by C. E. Gray, Chana, Ill.

Fair to choice medium and heavy shipping \$8.75 @ 8.85.  
Good to choice light shipping \$8.80 @ 8.90.  
Good to choice light mixed \$8.75 @ 8.80.  
Poor to fair light mixed \$8.60 @ 8.70.

Poor to good mixed packing \$8.60 @ 8.70.  
Poor to good heavy packing \$8.50 @ 8.65.  
Throwout rough heavy packing \$8.15 @ 8.35.  
Pigs, selected, 115 to 130 lbs. \$8.25 @ 8.60.  
Pigs, mixed, 110 lbs. and under \$7.50 @ 8.00.  
Stags \$8.90 @ 9.25.  
Boars \$3.00 @ 4.00.  
Governments \$2.00 @ 6.50.

**Receipts and Lambs.**  
Receipts Monday were 31,172. Buyers were very slow to start, prices being 35 to 40c lower on choice woolled lambs, and late in the day \$8.00 per cwt was the best bid on prime lots. On toward the close of the market best Colorado-Mexican lambs sold up to \$8.10, with the bulk of the sales for fair to good lambs sold from \$7.65 to \$7.90. Mexican woolled lambs sold up to \$8.10, the heavy grades selling \$7.50. Choice shorn lambs at \$6.85, with big weights selling down to \$6.00. Best wethers here at \$6.70. A feature of the trade was the sale of some spring lambs weighing 53 lbs. at \$13.00 per cwt. These lambs were, of course, used for the Easter trade, and after this week this class will undoubtedly sell quite a little lower.

Receipts Wednesday were estimated at 18,000. The market was active, choice handy Colorado-Mexican lambs selling 10 to 10c higher, our sales including a number of cars at \$8.25. The heavy grades and good northern lambs sold strong to 10c higher, bulk going at \$7.15 to \$8.00. Aged sheep were scarce.

Some prime wethers, weighing around 165 lbs. sold up to \$7.20, but this was no criterion of the general market. The shorn grades have moved very slowly and buyers have been slow to make bids, prime handy lambs being quotable up to \$7.00. There have been but few shorn sheep on sale.

**LAMBS—WOOLED.**  
Choice to prime handy weight \$8.15 @ 8.25.  
Medium to good \$7.85 @ 8.00.  
Plain to fair \$7.50 @ 7.75.  
Cull lambs \$6.75 @ 7.00.  
Good to choice heavy \$7.40 @ 7.60.

**LAMBS—SHORN.**  
Choice to prime handy weight \$6.85 @ 7.00.  
Medium to good \$6.50 @ 6.75.  
Plain to fair \$6.25 @ 6.50.  
Cull lambs \$5.00 @ 5.75.  
Good to choice heavy \$6.50 @ 6.75.

**WEANLINGS—WOOLED.**  
Choice to prime light \$7.40 @ 7.50.  
Fair to good \$7.00 @ 7.25.  
Choice heavy \$6.85 @ 7.00.  
Fair to good heavy \$6.50 @ 6.75.

**WEANLINGS—SHORN.**  
Choice to prime light \$6.15 @ 6.35.  
Fair to good \$5.75 @ 6.00.  
Choice heavy \$6.00 @ 6.25.  
Fair to good heavy \$5.50 @ 5.85.

**WETHERS—WOOLED.**  
Choice of prime light \$6.85 @ 7.00.  
Fair to good aged wethers \$6.25 @ 6.50.  
Poor to plain \$5.50 @ 5.75.

**WETHERS—SHORN.**  
Choice to prime light \$5.65 @ 5.85.  
Fair to good aged wethers \$5.00 @ 5.25.  
Poor to plain \$4.75 @ 5.25.

**EWES—WOOLED.**  
Good to prime \$6.50 @ 6.60.  
Fair to good \$6.00 @ 6.25.  
Cull ewes \$4.50 @ 5.00.

**EWES—SHORN.**  
Good to prime \$5.35 @ 5.60.  
Fair to good \$5.00 @ 5.25.  
Cull ewes \$3.75 @ 4.25.

**FEEDER SHEEP AND LAMBS.**  
Choice feeders \$7.15 @ 7.25.  
Fair to good feeders \$6.75 @ 7.00.  
Poor to plain feeders \$6.00 @ 6.50.

**FOR WEEK.**  
National Provisioner, April 4: Another direct boat from South America unloaded at the port of New York early in the week, brought the week's arrivals of foreign fresh meat up to considerable figures as compared with last week. The week's totals were 24,549 quarters of beef, compared to 8,497 quarters last week when no direct boat arrived, and 42,797 quarters two weeks ago, when the record was made.

## GOVERNMENT WINTER WHEAT REPORT STRENGTHENS SENTIMENT

Outlook For An Almost Phenomenal Crop Calculated To Inspire Greater Confidence in the Future.

New York, April 10.—Dun's review tomorrow will say: "Sentiment especially in the agricultural regions is strengthened by the splendid government report on winter wheat and the outlook for an almost phenomenal crop is calculated to inspire greater confidence in the future."

Failures this week in the United States are 331 against 279 last year. Failures in Canada number 55 against 28 last year.

**Bradstreet's Review of Trade.**  
Bradstreet's tomorrow will say: "Excellent early crop prospects, which buoy sentiment, sharply contrast with disappointing trade distribution irregularity in industry and cautious buying for future account. Easter requirements have made for a turn over in wearing apparel. Hardware implements and seeds are also active."

"While crop prospects, as well as indications of heavy planting, are such as to superinduce optimism buying continues on the basis of immediate wants. At most centers mail order houses are reported doing a thriving business."

**Chicago Livestock Market.**  
**HOGS.**  
Receipts 15,000.  
Market steady to shade higher.  
Bulk of sales \$8.80 @ 8.85.  
Light \$8.70 @ 8.90.  
Mixed \$8.65 @ 8.90.  
Heavy \$8.40 @ 8.85.  
Rough \$8.40 @ 8.55.  
Pigs \$7.50 @ 8.60.

**CATTLE.**  
Receipts 1,500.  
Market steady to strong, calves firm to shade higher.  
Beeves \$7.10 @ 9.50.  
Texas steers \$7.30 @ 8.35.  
Western steers \$7.10 @ 8.20.  
Stockers and feeders \$5.65 @ 8.10.  
Cows and heifers \$3.75 @ 8.65.  
Calves \$7.00 @ 10.50.

**SHEEP.**  
Receipts 12,000.  
Market strong to shade higher.  
Native \$6.50 @ 7.00.  
Western \$5.50 @ 7.10.  
Yearlings \$5.90 @ 7.50.  
Lambs, native \$6.30 @ 8.15.  
Western \$6.50 @ 8.35.

**St. Louis Livestock Market.**  
**HOGS.**  
Receipts 7,200.  
Market steady.  
Pigs and lights \$7.00 @ 8.85.  
Mixed and butchers \$8.75 @ 8.85.  
Good heavy \$8.80 @ 8.85.

**CATTLE.**  
Receipts 200.  
Market steady.  
Native beef steers \$7.50 @ 9.25.  
Cows and heifers \$4.25 @ 8.75.  
Stockers and feeders \$5.00 @ 8.00.

**SHEEP.**  
Receipts 1,900.  
Market steady.  
Native mutton \$5.75 @ 6.50.  
Lambs \$7.00 @ 8.25.  
Sheared lambs \$5.75 @ 7.35.

beef and 67 lambs came on the one boat direct from South America. There was also a large quantity of beef and mutton, aggregating 12,767 bags and boxes, and including pieces, ribs, rounds, chucks, etc. Much of this meat was distributed to outside points, but in spite of this fact, the market was very heavy and dull, due partly to the Lenten season and partly to general conditions.

Cable advices from Buenos Aires report that shipments from Argentina last week were light, totalling but 11,000 quarters of beef to the United States. During the week previous exports aggregated 53,000 quarters of beef, 8,000 carcasses of mutton and 1,000 carcasses of lambs, and since January 1, 210,000 quarters of beef, 53,000 carcasses of mutton and 28,000 of lamb were exported.

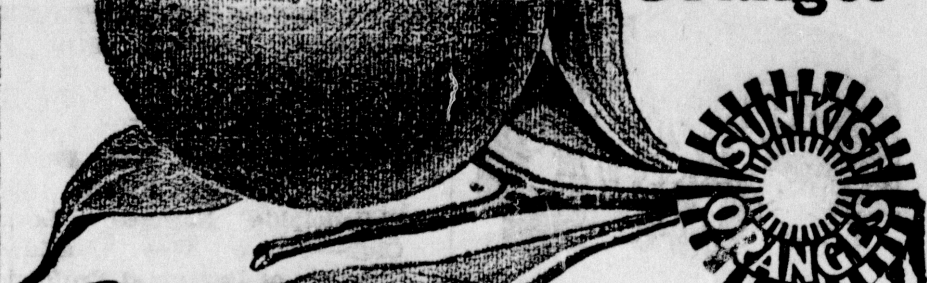

**Cattle Receipts Moderate.**  
National Stock Yards, Ill., April 9.—Blakely-Sanders-Mann Commission Co., says: Our cattle receipts have been very moderate since Wednesday and the representation of beef steers has been rather light. The trade has advanced and beef steers now show generally 25 to 35c higher than the low day last week which was Tuesday and generally 10 to 15c higher than the close of last week. The butcher heifer market has been good on all kind, but the light finished baby beefs have been the special feature this week, several loads have sold at 9c a lb., while on one load a little heavier, steers and heifers mixed sold at 9.15. Cow market has been active and all grades are selling strong. The strictly good heavy cows above 7c have not been plentiful, and that class has not sold readily as some of the cheaper grades. Stocker and feeders supply moderate market steady. Good fat bulls 10 to 15c lower, it takes good heavy kind of bring 7c, good bologna kind selling largely 6.25 to 6.50.

**Hogs.**  
Run of hogs today amounted to 8,500, the market was fairly active but about 5c lower than yesterday, good hogs nearly all sold at 8.80 to 8.85; light to good mixed 8.50 to 8.80; rough packers sold around 8.25. Pig market was fairly active and good pigs weighing 100 to 125 pounds 8.25 to 8.50; light pigs 7 to 8c. Don't think the supply will be very heavy and look for about a steady market the next few days.

We have had but just a few sheep and lambs here this week and the market is strong and active on all good killing kinds.

**HOME MARKETS.**  
Grocers pay farmers.  
Black & white, bu \$1.00.  
Apples, bu. \$1.00.  
Potatoes, bu. 80c.  
Eggs 15c.

## Special Sale of Delicious "Sunkist" Seedless Oranges

Not a seed in "Sunkist."

Juicy, rich, healthful oranges—the finest selected tree-ripened fruit grown in the world.

"SUNKIST" oranges are the cleanest of all fruits. Never touched by bare hands—all "Sunkist" pickers and packers wear clean cotton gloves while at work.

Buy a box of "SUNKIST" oranges—much cheaper by the box or half-box than by the dozen.

"Sunkist" lemons are the finest, juiciest fruit—mostly seedless—thin-skinned, too.

## "Sunkist" Oranges and Lemons Bring Handsome Rogers Silverware

Send the trademarks cut from "Sunkist" orange and lemon wrappers to us. We offer as premiums, elegant Rogers guaranteed A-1 Standard silverware, 27 different, magnificent premiums in exclusive "Sunkist" design.

This handsome orange spoon sent to you for 12 "Sunkist" trademarks and 6 two-cent stamps. Trademarks from "Red Ball" orange and lemon wrappers count same as "Sunkist."

## WHITE EAR WINS CHAMPIONSHIP; COMPOSITION OF BUSHEL OF CORN

Princeton, Ill., Man Produces First White Ear of Corn Which Won Title

IS BOONE COUNTY WHITE

Breed of the Ear Is One of the Seven Breeds Accepted by Ill. Corn Breeders' Ass'n

WHAT A BUSHEL CONTAINS

(By A. W. Jamison, University of Illinois)

The subject of an accompanying illustration is an ear of corn. But it is more than that, it is a very fine ear of corn, in fact, it is the best ear of corn in the world according to the judges at the Sixth National Corn Exposition held last month in Dallas, Texas. Furthermore, it is the first white ear which has ever won this distinguished title. The man who produced this ear is Mr. H. Hopper, of Princeton, Ill.

This ear is nine and three quarters inches long and three months after being picked, weighed 18 ounces. Competent judges stated it had probably lost two ounces in drying and had once weighed twenty ounces, or one and one quarter pounds. The breed is Boone County White, one of the seven standard breeds accepted by the Illinois Corn Breeders' association, the highest authority in the world in this line of work. The kernels are almost absolutely perfect in every particular, the butt and tip are exceptionally well filled and the ear conforms to the demands for this type to a remarkable degree.

In addition to the title of World's Champion this ear wins for the season the magnificent Thousand Dollar Solid Silver Cup, offered as a trophy for the best ear at the National Corn Exposition. This handsome cup is to become the permanent property of the man who first wins it two years in succession. The donor of the cup is the Kellogg Toasted Corn Flake Co., of Battle Creek, Michigan, who will have Mr. Hopper's name placed on the cup and send it to him at Princeton for exhibition. Once more Illinois is proud to have produced a world's champion.

The accompanying picture exhibits one bushel, fifty-six pounds of shelled corn in the large jar at the left of the illustration. Next to it is a jar of the same size but only about three quarters full. This contains forty pounds of corn starch, which is the amount of starch contained in one bushel of corn. Few realize that over seventy per cent of corn consists of corn starch. Starch is what the world really lives on. It is the principal ingredient of almost all seeds; and seed of various sorts, including grains of course, yield over ninety-five per cent of the vegetable food material of human beings. Again the meats eaten by us are produced by feeding grains to animals, so starch is the chief material from which our meat is made. Starchy materials are changed in the body to fats as well, and our butter and cream are indirect starch. So it is correct to call starch the World's Food. But at "Man cannot live by bread alone" other things are needed to supplement starch in the food of men and animals.

The most important addition to starch is the protein or nitrogenous material. The commonest examples of this class of foods are white of egg, gluten of wheat, casein of milk and lean of meat. The protein is required for the upbuilding and maintenance of the tissues. Animals whose diet is deficient in this respect are not thrifty, and if the deficiency is marked they fail to develop and in some cases have practically starved to death. The third jar contains the crude protein, five and seven-tenths pounds, ten and three-tenths per cent, found in a bushel of corn. The fourth jar contains one and one-tenth pounds of crude fibre, or woody material, two and two-tenths per cent. This is more or less digestible but is not profitable from this standpoint. It is however valuable as a sort of roughage, to add bulk to the ration.

The fifth jar contains the water in a bushel of high grade corn, higher than the new government standard No. 1. This figure is taken from the best authorities and gives ten and six-tenths per cent of water, or five and seven-tenths pounds per bushel. While this seems very high in a substance as dry as shelled corn, bread has about thirty-five per cent, and beef with the bones removed about fifty per cent of water.

The sixth jar contains something which is a great surprise to most people, namely oil, a fine oil suitable for human food, and which is beginning to be used as such. A bushel of corn contains two and seven-tenths pounds, considerably over a quart, five per cent. This oil is also used for soap-making, and is the principle ingredient in the filler used in automobile tires in place of pneumatic inner tubes.

The seventh jar is also somewhat of a surprise for it contains nearly a pound of ash, one and one-half per cent. When one stops to think that corn is a plant and has more or less woody material about it the presence of ash is not so surprising. Some years ago when corn was so cheap it did not pay to haul it to market in some of the western states, large quantities were burned instead of wood. It made a wonderfully fine fuel, and as such of course ash was to be expected. The ash consists of the mineral materials in the corn and is useful in the animal body in the building of bones and teeth as well as to supply other needs of the tissues.

We think of corn as one of the best known and most common substances and that there should be anything in it like oil or ash is rather unexpected. Also the amount of starch and water come as a surprise to most people. An inspection of this set of jars shows at once why corn is king and also why the great corn belt is the richest and most favored region of the country.

### KERNELS FROM CORN BELT

(Sol E. Quizer.)

Pointing out other people's faults only serves to "point up" one's own.

Even a tomato plant cannot prosper if it must support a lot of suckers.

The man who cannot pull his own freight can express views against equal outrage.

Now Jonah's not the only gink who early would have failed To write his name on the scroll of fame If he had not been whaled.

### MISS COLTON'S PUPILS GAVE RECITAL AT WOODSON.

Pupils of Miss Edith Colton gave a recital at Woodson Friday night which was greatly enjoyed by a large company. Each number was given with an excellence which indicated that the pupils have made good advancement under Miss Colton's instruction. The program was as follows:

Song of the Brook . . . . . Seymour Smith May Harney.

Light Hearts . . . . . J. H. Andrews Adelaide Vasey.

Courtly Dance . . . . . Dudley Martin Hazel Green.

### TO VISIT IN WEST.

Mr. and Mrs. William Beekman of Litchfield made a brief visit with his parents, Mr. and Mrs. J. B. Beekman of the Pisgah neighborhood yesterday. Mr. Beekman is employed by the Burlington railroad and he and his wife are taking a vacation. They will leave this morning for Denver, Colo., and will visit several places in the west, making Yellowstone Park an objective point.

State of Illinois ss.

Morgan County.

In the Circuit Court thereof. To the May Term A. D. 1914.

John T. Dickens as administrator of the estate of Mary E. Dickens alias Mammie Dickens, deceased, vs. Lewis C. Adams, Adaline Adams and Patrick Dale.

Affidavit of non-residence of Lewis C. Adams and Adaline Adams, two of the above named defendants, having been filed in the office of the Clerk of said Circuit Court of Morgan County, notice is hereby given to the said Lewis C. Adams and Adaline Adams that the complainant filed his bill of complaint in said court on the chancery side thereof on the third day of April, 1914, and that a summons thereupon issued out of said court against said defendants returnable on the 11th day of May next, 1914, being the first day of the May term 1914 of said court, as is by law required, and that said suit is now pending.

Now unless you the said Lewis C. Adams and Adaline Adams, shall personally be and appear before the said circuit court of Morgan County on the first day of the next term of the said court in the city of Jacksonville, in said county on the second Monday, being the 11th day of May, 1914, and plead, answer or demur to said complainant's bill of complaint, the same and the matters and things therein charged and stated, will be taken as confessed and a decree entered against you according to the prayer of said bill.

Eugene D. Pyatt, Clerk.

George L. Merrill, Complainant's Solicitor.

Dated April 3, 1914.

## APPLICATION OF RAW ROCK PHOSPHATE DOUBLES YIELDS

Investigation of Knox County Soils Shows Brown Silt Loam Prairie To Be Low in Phosphorus Content.

The most significant fact revealed by the investigation of the Knox county soils is the low phosphorus content of the common brown silt loam prairie, a type of soil which covers more than half the entire county. The market value of this land is about \$200 an acre, and yet an application of forty dollars' worth of fine-ground raw rock phosphate would double the phosphorus content of the plowed soil, and, if properly made, would in the near future double the yield of clover on the normal prairie soil and the undulating upland timber soils. If the clover was then returned to the soil, either directly or in farm manure, the combined effect of phosphorus and increased nitrogenous organic matter, with a good rotation of crops, would in time double the yield of corn on most farms.

With 5000 pounds of nitrogen in the prairie soil and an inexhaustible supply in the air, with 33,000 pounds of potassium in the same soil and with practically no acidity, the economic loss in farming such land with only 1200 pounds of total phosphorus in the plowed soil can be appreciated only by the man who fully realizes that in less than one generation the crop yields could be doubled by adding phosphorus—without the change of seed or season and with very little more work than is not devoted to the fields.

Fortunately, some definite field experiments have already been conducted on this most extensive type of soil, both in Knox county and on similar soil in several other counties, as at Urbana in Champaign county, at Sibley in Ford county, and at Bloomington in McLean county.

### Results of Field Experiments at Urbana.

A three-year rotation of corn, oats, and clover was begun on the North farm at the University of Illinois in 1902, on three fields of typical brown silt loam prairie land, which, after twenty years or more of pasturing, had grown corn in 1895, 1896 and 1897 (when careful records were kept of the yields produced) and had then been cropped with clover and grass on one field, oats on another, and cowpeas, and corn on the third field, until 1901.

As an average of the first three years (1902-1904) phosphorus increased the crop yields per acre by .68 ton of clover, 8.8 bushels of corn, and 1.9 bushels of oats. During the second three years (1905-1907) it produced average increases of 7.0 ton of clover, 13.2 bushels of corn, and 11.9 bushels of oats. During the third course of the rotation (1908-1910) it produced average increases of 1.05 tons of clover, 18.7 bushels of corn, and 8.4 bushels of oats.

Wheat is grown on the University South farm in a rotation experiment started more recently. As an average of the four years 1908 to 1911, raw rock phosphate (with no previous application of bone meal) increased the yield of wheat by 10.3 bushels per acre. Here too, as an average of the four years, the phosphorus applied paid back about twice its cost.

In the grain system of farming, the yield of wheat in 1911 was 35.2 bushels per acre where cover crops and crop residues are plowed under without the use of phosphorus; but where rock phosphate is used the average yield was 50.1 bushels.

In the live-stock system, the yield of wheat in 1911 was 34.2 bushels where manure and cover crops are used without phosphate, and 51.8 bushels as an average, where rock phosphate is used in addition.

These results emphasize the cumulative effect of permanent systems of soil improvement.

(Wheat has also been grown on the North farm during the last three years and the average increase produced by phosphorus (part in bone meal and part in raw phosphate) has been 12.4 bushels per acre.

### REV. ALKIRE TALKS OF BLOOMINGTON ELECTION

Bloomington, Ill., 4-10-14.

Dear Journal:

Well, we won. Bloomington, beautiful for situation and progressive in spite of its several handicaps (and I need not mention them) has voted her sentiments, and declared her readiness to join Jacksonville, Decatur, Rockford, and the long list of cities which have caught the modern spirit of righteousness.

But the "wets" do not seem to be as good losers as our "drys." Each time before when the majority said "wet," we abode by the verdict. But now the "wets" while acknowledging that the "drys" won, are trying to pick a flaw. However, if they peaceably accept the verdict as we always have, there will be no trouble. Otherwise there is a fair prospect of some "prominent" fellows coming to grief. Cameras do not lie, and Uncle Sam is particular about his ballot-box laws.

It was a hard fight. But liquor has been a giant, and giants die hard. Secretary Daniels seems to be the 1914 David to go out and slay this giant. That navy edict, started even us "drys." We had to fight hard to clean out the canteen, and fire bars a mile distant from military homes. Well, we deserve

## FARMERS AS A CLASS AS BORROWERS FROM BANKS

FARM LOANS CONSTITUTE ABOUT 60 PER CENT OF ALL LOANS MADE.

Average Farmer Borrows Less Than Bank Customers of Other Classes—This May Be Due to Their Borrowing Outside of Banks and Their Prosperity as a Class.

(By Charles L. Stewart, University of Illinois.)

Farm loans constitute between 60 and 65 per cent of all loans made by the reporting banks (400 in number). The most fashionable percentage reported in each district is 75, the average, however, being perhaps 63. In Central Illinois the predominance of farm loans is still greater, the average percentage being slightly over 70. In Southern Illinois the average sinks to the neighborhood of 55 per cent. In Northern Illinois the percentage is somewhat less than 60.

In the northern and central parts of the state it appears that the proportion of loans made to farmers is about the same as the proportion of farmers in the total population. In Southern Illinois, however, the farm loans are perhaps 20 per cent less prominent among all loans than would suit the prominence of the farm population. Throughout the state the farmers do less borrowing from banks than their prevalence among bank customers would warrant. This may indicate either that the average farmer borrows less or that a larger proportion of farmers abstain from borrowing than of other classes of bank customers.

The extent of sectional differences in this matter cannot be calculated accurately, but the following estimate is ventured: In northern Illinois farmers do perhaps 10 per cent less than their share of bank borrowing, in Central Illinois perhaps 5 per cent less than their share, and in Southern Illinois at least 20 per cent less.

This may be due in some measure to borrowing done outside of banks. If farmers do their full share of borrowing in all districts of the state, borrowing from neighbors and agents must be much more prevalent in Southern Illinois than in other sections. Comments dropped in the questionnaire give some ground for the belief that such may be the case.

It appears that farmers in Northern and Central Illinois have about an equally prominent part to play at borrowing from banks as at depositing with banks. In Southern Illinois farmers as a whole do less borrowing than depositing as compared with other classes. It may be that as large a proportion of farmers as of others borrow from bankers, but that they borrow small sums on the average. The returns throw no light on this phase of the subject.

Causes for less borrowing by farmers in general may be found in the prosperity of the farmers, although prosperity, borrowing in some districts is probably a symptom of expansion of operation or improvement in farming equipment.

Only one of the 400 bankers reports that the "credit and rate" given the farmer is inferior, while 14 per cent of the institute officials who were questioned express that view. This is so wide a difference of opinion that "someone must be mistaken." The fact that the institute officials who contended against the farmer is discriminated against in the rate charged on loans are, with two exceptions, from the same part of the state, namely, the southern district, lends strength to the position they take.

On the whole, however, it appears that the farmer is not often discriminated against seriously and perhaps in most cases where any difference exists he is the beneficiary in the discrimination.

a few things gratis, and are glad for Mr. Daniels.

Say, Chief Davis, some woman gave you an awful slam in the Bulletin this week. She said she spent four days in Jacksonville lately, and saw more drunks than she had seen in Bloomington in ten years. That the grass in the streets and alleys was awful, and that you fellows turned off the street lights every night at 10 o'clock, and the whole city abode in darkness until morning. I was in the old town during that time. Wonder why I didn't see all that? Maybe so dark I couldn't see. Oh yes, she said I should get anybody could find scores of "blind pigs" and get all the liquor they wanted. Say, I must be a blind pig myself! I've been in and about Jacksonville for seven years and never saw anything like a blind pig. But it takes a woman to "see things" evidently. Some woman that, to see so much in four days!

A Happy Easter to you all.

Most Sincerely,

Hy S. Alkire.

### SUNDAY SERVICES AT ORLEANS

Pisgah Presbyterian church, Orleans, W. J. Rainey, pastor. Sunday school 9 a. m., morning service 11 o'clock, subject, "Assurance." Communion service. The installation of elders and deacons has been postponed until Sunday, April 19.

Charles Anderson of St. Louis, traveling passenger agent of the Rock Island, was in the city yesterday on business.

## METER GREAT ADVANCE TOWARD INTELLIGENT AND FAIR RATES

Flat Rate Merely Encouraged the Unprincipled to Waste—Sliding Scale of Rates on Basis of Consumption is Unfair.

(By F. E. Herdman, Winnetka, Illinois.)

Public Utilities rates of the past and many of those of the present will not stand analysis and the only explanation for their existence is in either selfishness or ignorance or both, certainly not the public good of the community served.

The Flat Rate—One of the most vicious of human conceptions, encourages the unprincipled to waste just because they do not pay for that waste, and whom does it benefit—those who want an abundance but do not wish to stand the cost of it; and who pays this cost—those who use economically and are watchful to prevent waste. To be sure all pay for a certain extent (though they do not realize it) but the burden is on the careful ones, the small consumers who are entitled to better treatment.

Most privately operated Public Utility properties have broken away from the flat rate, not being able to withstand the waste which it encourages, but municipally operated Public Utility properties (mostly water) are slower in abandoning the flat rate—though I cannot conceive why. Such arguments as I have heard for its continuance are not what you would classify as sound.

The meter is a great advance toward intelligent and equitable rates as it registers against each consumer his consumption. If he is wasteful, he is the one who suffers, if he is economical, he is the one who gains. The consumer pays for what he gets and he can have all he chooses to pay for.

But the meter does not cure all the inconsistencies of rates. A sliding scale of rates, on the basis of consumption is neither an equitable or an intelligent basis for rates.

Because the demand of a large consumer on the mains and pumping plant may be, and probably is, in the same proportion as that of the smaller consumer, and therefore each M. gallons delivered under large consumption is of the same cost as each M. gallons delivered under the smaller consumption and therefore subject to the same rates.

The correct system of rates is that all consumption during the maximum demand on the mains and pumping plant shall be charged for at the maximum rate. That all additional consumption shall be charged for at lesser rate or rates based on the smaller investment required for such service. As all would have the same opportunity for advantage under this lesser rate it could fairly be figured on a closer margin if judgment so dictate.

Any special conditions of very large supply direct from the pumping plant may produce special rates, but like factors of cost must be considered in like manner for such rates.

The minimum or what can be considered the ready to serve charge should also be in proportion to the maximum demand measured by the area of the meter. This charge is essential.

This I believe treats all with equal fairness charging all alike for that portion which taxes the maximum capacity of mains and pumps; and a lesser amount for all beyond that amount, thereby giving full credit to the consumers of large consumption and proportionately small maximum demand.

### COMPULSORY EDUCATION.

Although six states in the union are still without compulsory school attendance laws, and four others have laws that apply only partially, definite progress during the past decade is reported in a bulletin just issued by the United States Bureau of education. Since 1905 eight states previously without compulsory laws have adopted them, and it is thought to be a matter of only a few years when compulsory school attendance will be in effect in every state and territory of the United States.

The six states still without compulsory school laws are: South Carolina, Georgia, Florida, Alabama, Mississippi and Texas. The four local option states, where the law is in effect in certain counties, are Maryland, Virginia, Arkansas and Louisiana.

The bureau's investigation of the subject reveals a close connection between lack of compulsory attendance laws and illiteracy. The states rank in percentage of illiteracy very much in accordance with the length of time compulsory schooling has been in effect and the completeness with which it is enforced.

The states vary widely in number of years and amount of attendance required each year. The period of compulsory attendance is from 8 to 12 in North Carolina and Virginia. In most states it is 8 to 14 or 15. The present tendency is to raise the upper limit of compulsion. In 17 states the compulsory age limit is 16 years or above; in Idaho it is 18. As a general rule, however, children in all these states are allowed to leave school at 14 years of age if they secure employment or have completed the 8th grade in school. There is a constantly increasing effort to safeguard the child between 14 and 16 years of age, the period of special

## PERFECT STAND ANOTHER FACTOR LEADING TO A HIGH CORN YIELD

### AGRICULTURAL NOTES.

#### Spring Management of Bees.

This is the critical season in the management of an apiary, for upon conditions now will largely depend the amount of surplus stored. It is essential that the bees be supplied with plenty of stores for brood rearing, that the queens be young and vigorous, and that there be some protection from the chilling winds prevalent at this season of the year.

The hives should always be placed in a protected position, where the wind strikes as little as possible. When the warm days come, the hive is soon filled with eggs and young bees, which must be kept very warm. When the cold winds blow, the bees are unable to keep up a sufficient amount of heat, and a part of the brood will be chilled and consequently lost. A sheltered position on the south side of a grove or buildings is therefore very desirable.

Frank C. Pellett, Inspector of Apiaries for Iowa

#### Importance for the vocational preparation of most children.

As little as 12 weeks of school attendance during any one year may be required in Virginia, Oklahoma, Delaware and Nebraska, while in Vermont and other states there must be 150 or more days of actual school attendance every year. Many states require attendance "during the full time school is in session," which may mean anything from 41 to 194 days. Some states secure attendance during long terms by conditioning state appropriations upon the number of days of actual school attendance.

A variety of exemptions are found in the laws of the different states. Connecticut and Arkansas will not enforce the compulsory attendance law "if the parent is not able to provide proper clothing" for the child. Physical or mental incapacity is a general exemption; another customary exemption is remoteness from school facilities. Occasionally exemptions are made in religious grounds. Thus the Michigan law exempts children from compulsory attendance between the ages of 12 and 14 while in attendance at confirmation classes for a period not to exceed five months in each of the two years.

Necessary factors in the enforcement of compulsory attendance laws are summed up as follows: An annual school census taken by the school authorities; prompt reports of unexcused absences by teachers in public and private schools; properly qualified attendance officers; state agents to see that the laws are enforced; special schools for truant and pupils irregular in attendance; relief for indigent parents having children of compulsory age; a definite annual period of attendance; well enforced child labor laws; employment certificate made out to the employer; and proper penalties for all concerned in the enforcement of the law.

#### Nothing so Good for a Cough or Cold.

When you have a cold you want the best medicine obtainable so as to get rid of it with the least possible delay. There are many who consider Chamberlain's Cough Remedy unsurpassed. Mrs. J. Boroff, Elda, Ohio, says: "Ever since my daughter Ruth was cured of a severe and bad cough by Chamberlain's Cough Remedy two years ago, I have felt kindly disposed toward the manufacturers of that preparation. I know of nothing so quick to relieve a cough or cure a cold." For sale by all dealers.—Adv.

#### REMOVES TO OTTAWA.

William Harrison has removed his family from Goltra avenue, this city to Ottawa, Ill., where he will be employed as a foreman by John Cherry on the latter's large paving contract in that city.

#### BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets Are a Harmless Substitute.

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. They are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. His efforts to banish it brought out these little olive-colored tablets. These pleasant little tablets do the good that calomel does but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel, but to let Dr. Edwards' Olive Tablets take its place.

Most headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." Note how they "clear" clouded brain and how they "perk up" the spirits. At 50c and 25c per box. The Olive Tablet Company, Columbus, O. All druggists.—Adv.

Care Must Be Taken That Seed Is of High Germination to Insure High Stands

THE SILO AND ENSILAGE

Practice of Growing Late Maturing Varieties of Corn for Silage Produces Poor Quality

SILO BEST PLACE TO KEEP CORN

Article II.

By Professor C. P. Norgord, University of Wisconsin.

In the previous article we discussed the ear to row method as a factor in getting large yields.

Another factor leading to a high yield per acre is a perfect stand of corn. In a test of the stand of corn of five hundred and fifty farmers during 1909 and 1910 it was shown that their stand of corn was sixty-six per cent, due to the fact that the germination of their corn was only sixty-three per cent. Corn cured on windmills gave a stand of 34 per cent; under porch, 69 per cent; in shock during winter, 33 per cent; in rooms where heat was present to dry the corn immediately after it was picked, where there was good ventilation through several windows, and where each ear of corn was so hung that it did not touch its neighbor, the germination was between 90 per cent and 95 per cent, with stands as high. Such places were, around kitchen stoves in special kilns for drying corn, in attics supplied with sufficient windows for ventilation, and in well ventilated cellars having furnaces.

Corn grown in a proper rotation also produces the large yield. On the experimental fields at the Manitowish County Asylum farm last year corn grown on sod yielded at the rate of 16.12 tons of corn fodder per acre; that grown after corn the previous year yielded at the rate of 14.29 tons per acre. Other experiments of this kind show a difference of from five to eight tons increase of fodder per acre on sod lands as compared with lands having grown corn or grain.

The application of unleached manures at the proper stage in the rotation is also an efficient factor in the production of corn. Corn grown on land treated with fresh manure at the Tomah Experimental fields during the past two years has averaged ninety bushels per acre, whereas that grown on land treated with leached manure has averaged sixty bushels per acre—a loss of thirty bushels per acre due to the leaching of manures.

Many farmers grow late maturing varieties of corn for silage which cannot properly mature in time for making silage. This practice produces silage of poor quality and an immense loss of feed per acre. When corn is in the milk stage it contains approximately two tons less dry matter per acre on the average than when ripe. Corn is composed of water and dry matter. The water can be obtained from the pump—the dry matter represents the feeding value. The farmer who puts his corn into the silo in the milk stage instead of when ripe loses from one to two tons of feeding value per acre. Corn contains a high percentage of starch. In the immature stages this starch is in the form of sugar. When such corn is placed in the silo, bacterial and chemical action works upon the sugar and changes it to alcohol and finally to acetic acid or vinegar, thus producing a sour, unpalatable, non-nutritious, unhealthy silage which gives undesirable odors to the milk, weakens the cows, and lowers production. The proper time to place corn in the silo is therefore late in the dough stage or when it is perfectly ripe, ready to be shocked and has its full development and supply of starch. At such times the water is low. This should be added by means of hose or pails, running the water in the blower as the corn goes into the silo.

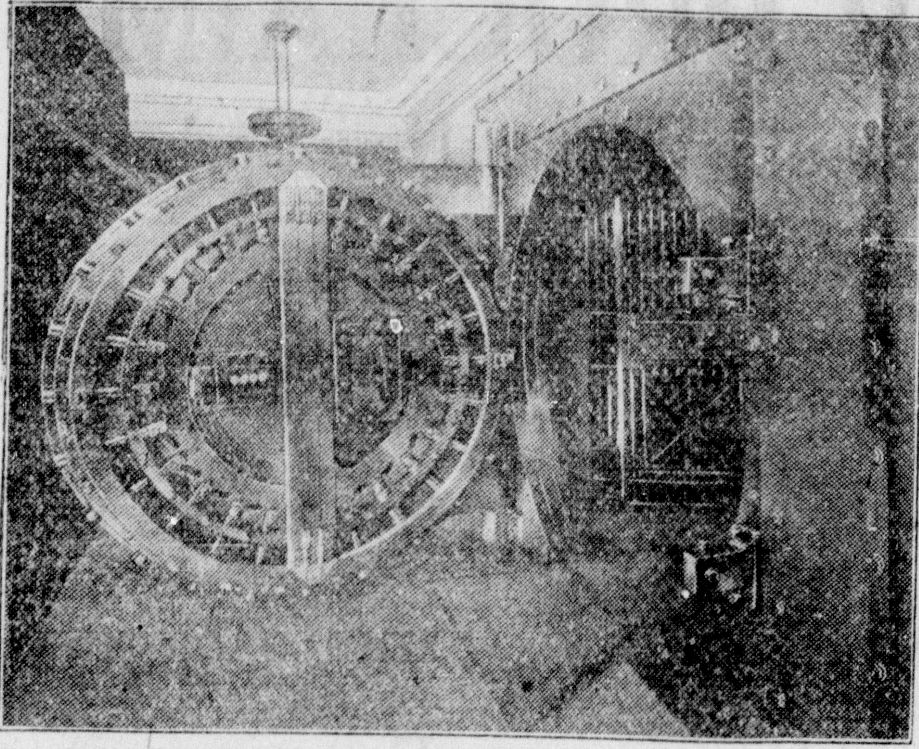

Too much packing cannot be done for the packing and the addition of water excludes the air and the bacteria. Where bacteria are absent or where they have no air in which to work, no decay can take place. No danger is involved in applying water to silage, as silage keeps just as rhubarb keeps in cans—by the destruction of the bacteria which came in with the plants by means of the acids of the silage and the exclusion of other bacteria through closing up the openings between the stalks, with which they enter.

Many farmers dislike to see the golden ears go into the silo. They ask, "Can we not make a good silage from the stalks and thus be able to put the ears in the crib?" Experiments conducted at many places show that the silo is the best place in which to keep corn.

Mrs. O. C. Coultas of Winchester was a shopper in Jacksonville yesterday.

## The Ayers Safe Deposit Vault

A Safe Deposit Box is not a luxury, but a necessity to the owner of stocks, bonds, deeds, mortgages, insurance policies and other valuable papers.

Anxiety about jewelry and silveware not in use is dispelled when they are in a Safe Deposit Vault.

It may be of interest to know that in the construction of the vault there are more than 380,000 pounds of steel and the door itself weighs 14 tons.

To rent a Safe Deposit Box in this vault costs less than one cent a day.

Private rooms for the examination of papers are provided for the convenience of patrons.

## The Tidy Housekeeper Guards Against Bugs

Our bug exterminator kills them all—the little fellows as well as the big ones. Destroys the nests, breaks up the breeding places, does not leave the slightest stain. Has very faint odor, which passes away within a few minutes. Gives all around satisfaction wherever used. Big bottle 25c. Get it today.

## MORTUARY

### Ash.

Mrs. Amelia Ash, died Friday morning at 2:30 o'clock at her late home in Murrayville, after a long illness. She was born in the State of Virginia, July 18, 1847, her maiden name being Livengood. Her husband died three years ago and she had been making her home with her daughter, Mrs. S. W. Hidden in Murrayville. She was a member of the Methodist church and known for her kindness of heart and regard for that which was upright and true in life.

Besides the one daughter she leaves another daughter, Mrs. Flora Arnold who resides in Manchester and a son Monroe in the southern part of the state.

The funeral will be conducted Sunday afternoon at 2 o'clock from the M. E. church in charge of Rev. C. S. McCullom. Interment will be in Bethel cemetery.

### Lumpkins.

The nine months old son of Mr. and Mrs. M. M. Lumpkins of Pisgah died Friday. The funeral services will be conducted today at 11 o'clock from the M. E. church in Franklin with burial in the Franklin cemetery.

### Horton.

Frank Horton, a former resident of Murrayville, died Thursday at the Old Soldier's home in Quincy, at the age of 70 years. He served in the War of the Rebellion for three years. His wife had been dead for a number of years, also a son. He was a daughter residing in Edgewater, Colo., and a brother living near Beardstown.

The remains will arrive in Murrayville this morning and brief services will be conducted at Bethel cemetery Saturday morning at 11 o'clock, in charge of Rev. C. S. McCullom.

## FUNERALS

### Kershaw.

Funeral services for Mrs. Thomas Kershaw were held at the residence of her brother, Ben Wood, 539 South Kosciusko street, Friday morning at 10 o'clock in the presence of a large number of relatives and friends. The services were in charge of Dr. A. B. Morey. Music was furnished by a quartet composed of Miss Cunningham, Mrs. Geo. Hollinger, Albert Metcalf and W. W. Gillham and the flowers were cared for by Miss Lulu Wood and Miss Eva Abernathy.

Interment was made in Diamond Grove cemetery and the bearers were: Roy Abernathy, Allen Abernathy, Earl Abernathy, James Abernathy, John Kershaw and Albert Metcalf.

### WITH SICK PEOPLE.

Leo May, son of Mr. and Mrs. Amos May of East Court street, is suffering from a badly sprained ankle.

Ezra Wyatt of the Jacksonville Transfer Company is confined to his home on Allen avenue with tonsillitis and lagrippe.

The condition of Mrs. Elizabeth Osborne, whose illness has been mentioned before, was unimproved yesterday.

The venerable John Sybrant, who has been seriously ill at the home of Mr. and Mrs. George T. Douglas, is now very much better, a fact which is gratifying to his many friends. Mr. Sybrant's spirit has had much to do with his recovery and there are good indications that he will soon be out again.

Complete offerings in mens furnishings at Knoles.

### LAST SERVICE AT GRACE.

The last service at Grace M. E. church before Easter was held Friday night when Rev. Frederic Baylis preached from the subject, "The Greatest Love Story in the World," taking for a text, "For God so loved the World, that He gave His only begotten son, that whosoever believeth on Him should not perish but have everlasting life." His sermon was full of helpful thoughts and ideas.

### BIRTH RECORD.

Born Friday at Passavant hospital to Mr. and Mrs. Henry J. Smith, a daughter.

## FARMERS DISCUSS HARD ROAD QUESTION AT RIGGSTON

Enthusiastic Gathering Held at Scott County Village Friday Afternoon.

Between fifty and sixty farmers, residing in the neighborhood of Riggsston and along the Phillips Ferry road which runs through Morgan and Scott counties, gathered at the church in Riggsston Friday afternoon to talk over the proposed state aid hard road.

Hon. Frank J. Heintz of this city was expected to address the meeting, but was unable to be present, a number of important talks were made, however, and an organization effected.

Benjamin F. Green was chosen president and Elmer Walker was elected secretary. It is not known when another meeting of the organization will be held, but it is probable that since an organization with capable officers has now been completed that other profitable meetings will be held from time to time during the year.

The object of the gathering and organization is primarily to co-operate as much as possible with state and county officials to secure for the Phillips Ferry highway the proposed state aid hard road which is planned to extend through this vicinity from Springfield to Quincy. The highway when completed will prove a great benefit to people living along its pathway, and also to the city dweller, as it will enable the farmer, the producer, to reach the city in times of bad weather with his butter, eggs, etc., at a time when prices on such things are soaring and when the ordinary dirt road is well nigh impassable.

And so the people of the Riggsston vicinity are to be congratulated on their organization for good roads, and for better things agriculturally, which will bring an even greater prosperity to that already fertile and rich farming community.

## BUY THE NEW YORK PHIPPS HATS AT HERMAN'S.

### THE GENERAL SCHOOL LAW.

(Continued.) Under the general school law the school board has the right to make tax levies up to the full limit of the law, without any restraint, and expend the amount for any funds they might want to introduce into the schools.

Under the special charter all tax levies asked for by the school board must be submitted to the city council whose privilege it is to reduce the levy to such amount as the council might deem expedient. If the citizens of Jacksonville will reflect, they will recall innumerable times when the city council acted as a check upon the extravagance of the school board.

When the original plans of the eighth grade building, now under construction, were first submitted, it was estimated that it would cost about \$125,000 to complete the building. The fact that the cost was reduced to about \$60,000 is due to the city council refusing to make the amount of tax levy asked for by the school board, and also to the fact that one recently appointed member of the school board was able to point out in the plans how to reduce the walls, change the material, and alter in other respects to the extent that we have practically the same building first planned at one half the original first price. All as the results of the special charter and the excellent material we are able to go on the board as a result of choosing by wards Cadmus.

From the well selected assortment of MEN'S late style hats shown by FRANK BYRNS its easy to secure a becoming style.

## GAVE BAZAAR AND CHICKEN PIE SUPPER

Women's Missionary Society Has Profitable Day.

The Woman's Missionary society of the Central Christian church held a bazaar and supper at the church Friday. A large number of ladies were in attendance at the bazaar, and the various articles for sale were disposed of in a satisfactory manner. The candy booth was in charge of Mrs. R. L. Pyatt and Miss Lois Hayden, the Domestic department, Mrs. C. L. Hayden; Fancy articles, Mrs. Walter Schrag and Mrs. Frank Caldwell.

A splendid chicken pie supper was served in the dining room of the church and was well patronized. Mrs. M. B. Thornberry, president of the society was chairman of all committees. The managers of the different departments follow: chicken pie, Mrs. U. G. Hale, Mrs. William Harney, Mrs. J. R. Watt, Mrs. W. J. Fell; potatoes, Mrs. Mildred Powell, Mrs. Scott Carter; salad, Miss Elizabeth Sanderson, Miss Lizzie Ratachak; in charge of the tickets, Mrs. Nannie Rawlings; charge of money, Mrs. George Harney.

You will find a complete and exclusive line of Easter neckwear at Knoles.

WOMAN'S CLUB MEETING. Miss Elizabeth Jenkins will address the Woman's club this afternoon at 2 o'clock on the subject, "The Montessori Movement in America."

A gorgeous and fragrant Easter display is that at Heintz; blooming plants in great variety.

Chester Hemphill is home from University of Illinois for the Easter holidays.

KING GUSTAV IMPROVING. Stockholm, Sweden, April 10.—The general condition of King Gustav of Sweden who underwent an operation yesterday for ulceration of the stomach, continues satisfactory.

### MANY GRADUATES OF PASSAVANT AN SHERMAN, TEX

Former Nurses Here are Holding Responsible Places in New Hospital in South.

The Sherman hospital, which has recently opened at Sherman, Texas, has several former graduates of Passavant hospital at the head of the various departments. The hospital is finely equipped, containing one hundred beds, also a splendid sleeping department for the nurses.

Mrs. Catherine McClellan, R. N., who graduated from Passavant and recently was head nurse at Maplewood sanitarium, is superintendent of the Sherman hospital; Miss Mabel Kendrick, N. R., who graduated from Passavant in 1912, is head surgical nurse; Miss Lydia DePew, R. N., 1905, head of the department of obstetrics; Miss Ruth Vail, R. N., who graduated as a dietitian at the Woman's college, is dean of the dietitian department at Sherman. She served one year in the capacity at Maplewood sanitarium.

Miss Freda Bleeker, R. N., class of 1910, has a position in the new German hospital in Kansas City; Miss Charlotte I. Hazen, R. N., class of 1910, has a responsible position in the new hospital at Hutchinson, Kansas. Another graduate of Passavant is soon to be associated with a hospital in the west. There are a number of other graduates from Passavant who are filling places of importance and the high standard of the local hospital is evidenced from the demand for nurses from this institution. They have started a training department in the Sherman school.

Men we cordially invite you to inspect our line of suits for spring wear. The garments are stylish and the prices right. Knobs.

### CENTENARY SERVICES

LARGELY ATTENDED.  
Despite the facts that union services were held Friday afternoon at Centenary M. E. church, there was a large audience present in the evening, the final services of the pre-Easter exercises. The subject was "Light for the Gentiles" and Rev. G. W. Flagge preached from the text "Truly this was the son of God." The light frightened when Jesus was crucified, because his accusers felt guilt. The centurian got his conviction during the trial of Jesus. The light which dawned on the Gentiles has been shining on the Gentiles since and will continue to shine.

Several recommendations were made for church membership and these will be taken in at the regular morning service Sunday.

The interior of Heintz's show room, massed with blooming plants is an Easter sight worth seeing.

### CITY AND COUNTY

Ernest Sanders was a city visitor Friday from Concord. Fresh strawberry ice cream at Vickery & Merrigan's.

Miss Zella Crain of Woodson was a visitor in the city Friday.

J. H. Dial of Murrayville was among the city visitors Friday.

Miss Frances Gillis of Litterberry was a visitor in the city Friday.

John Martin of Litterberry was in the city Friday transacting business.

Miss Alberta Gibson of Franklin was a Friday visitor in Jacksonville.

Mrs. Frank Pholsgraf of Arenzville was shopping in the city yesterday.

John Bown of Murrayville was a business visitor in the city yesterday.

Mrs. William Rook of Woodson was a shopper in Jacksonville Friday.

Mrs. Charles Hagan of Alexander was among the city visitors yesterday.

Robert Hills of Lynnville was in the city Friday attending to business.

Mr. and Mrs. Frank Elliott are spending a few days with their sons in Chicago.

Mr. and Mrs. Roy Abernathy of Concord were visitors in Jacksonville Friday.

Mrs. Henry Scott was a Friday visitor in the city from the Asbury neighborhood.

Mrs. Sarah Riddle of Chicago is the guest of her sister, Mrs. Edward P. Kirby.

Peter Hamel has gone to the home of his daughter near Woodson for a visit of some weeks.

Miss Edna Hobbs will leave today for her destination, Mo., to visit her aunt, Mrs. James Green.

Miss Freida Buescher will spend Easter with her mother, Mrs. Fred. Buescher of Beardstown.

Mrs. John Hall and daughter Helen were among the Alexander visitors in the city Friday.

Mrs. J. M. Swope and daughter, Mrs. Arthur Crum, were visitors in the city Friday from Arenzville.

Miss Lucille Mason will spend today and Sunday with her parents, Mr. and Mrs. E. E. Mason of Alexander.

Mr. and Mrs. F. H. Jewsbury and Mr. and Mrs. A. W. Jewsbury were among the Friday visitors in the city from Markham.

A WINDOW OF GOOD THINGS.

It would be hard to imagine a prettier collection of good things to eat than A. R. Taylor has in the window of his grocery. Head lettuce, spinach and green onions are there, suggestive of spring; dark red apples from the Pacific slope, light red tomatoes from the south, yellow sweet potatoes, pie plant in delicious pink clusters and dark green mangoes—a real mosaic of abounding color.

### COUNTY ASSESSORS NOW

BUSY WITH ANNUAL WORK

Are Collecting the Data Which Will Form the Basis of Taxation Later On.

Deputy assessors appointed by County Assessor Jerry Cox are now busy with the work of making the assessments for the current year. Schedules have been left with many property owners and in other instances the deputies have completed a number and have them ready for filing. James Ellis, office deputy and J. M. Dunlap who has done this work for a number of years will view the improvements made in reality and will also attend to some city schedules.

Assessors for Jacksonville are: first ward, James Donovan; second ward, T. J. Bronson; Mat Harmon; third ward, J. Van Wyatt; fourth ward, J. S. Sheppard.

Other assessors are as follows:

Waverly—E. Etter.

13-8—Bradford Turner.

13-9—David Wilson.

14-8—Theodore Berchtold.

14-9—Samuel Camm.

14-10—Leonard Fitzsimmons.

14-11—John Koyne.

15-8 and 9—Jerry Tankersley.

15-10—John McDonald and "Toke" Gibbons.

15-15—Richard Leake.

15-12—Blair Holliday.

16-8 and 9—John Newall.

13-10—Thomas Irlam.

16-10—Harry Ogle.

16-11—Walter Beddingfield.

16-12—Albert Brookhouse.

16-13—Nelson Bushnell.

ANOTHER SHIPMENT OF UP TO DATE COATS JUST RECEIVED AT HERMAN'S.

VEHICLE TAX NOW DUE.

Notice is hereby given that vehicle license is now due and payable at this office. The ordinance requiring the payment of a vehicle tax will be strictly enforced.

R. L. Pyatt, City Clerk.

HARRISON DISAPPOINTED OVER DEFEAT OF SUBWAY.

Albuquerque, N. M., April 10.—Carter H. Harrison, mayor of Chicago, made a brief stop here today on his way to Grand Canyon. Mayor Harrison expressed disappointment at the failure of the subway project to carry in Tuesday's election, but said its advocates would try again. He blamed defeat on Chicago newspapers, which he said did not present the project fairly. Mayor Harrison and his son will spend some time at Grand Canyon and in hunting in Toas county, New Mexico.

LAW WILL BE ENFORCED.

New York, April 10.—Union Square will be heavily policed tomorrow as a result of recent statements by leaders of the Industrial Workers of the World and the unemployed that a mass meeting is to be held there. This was made known today in a statement by Mayor Mitchell's new police commissioner, Arthur H. Wood. No attempt will be made to prevent free assemblies or to deny the right of free speech, the commissioner said, but the law will be enforced.

You should surely see those beautiful blooming plants at Heintz's today.

BENNETT IS RECOVERING.

Cairo, Egypt, April 10.—James Gordon Bennett, proprietor of the New York Herald, is steadily recovering from his attack of bronchitis and expects to leave Cairo next Tuesday for Alexandria. At that port he will board his yacht and sail for the Riviera.

REPORTS SHOW DEFICITS.

New York, April 10.—Increased deficits are shown by the New York, New Haven & Hartford railroad company and virtually all its subsidiaries for the month of February. The Maine line reports a deficit in net income of \$777,438 against \$433,084 in the preceding month.

FIRST SCHOOL FOR BAKERS.

Milwaukee, Wis., April 10.—Milwaukee will have the first school for bakers in this country. The board of industrial education today ordered Superintendent Cooley of the continuation school to proceed with the undertaking.

### ATHLETICS IN WARDS

RECEIVE BIG IMPETUS

Enthusiastic Meeting Held at High School and Organization Will Soon Be Perfected—William Allcott Tells of Joliet Schools.

An enthusiastic meeting in the interest of athletics in the various wards was held at the high school Friday afternoon. Students of the fifth, sixth and seventh grades were among the students present and the first on the program was thirty minutes of music by the band. Supt. Gore stated the purpose of the meeting and presided, and there were spirited talks by Principal Collins, Coach Buland, William A. Allcott, James Haigh and Fred Darr. Supt. Gore stated that he wanted the members in each ward to elect a vice president and secretary, one faculty member and two students. On Tuesday all will assemble at the high school for a more permanent organization. A chairman and secretary will be elected and arrangements will be made for the various lines of sport for the ensuing year.

In his talk, Fred Darr in behalf of H. L. and R. W. Smith Hardware store, who handles the Wright and Ditson sporting goods, stated that the hardware company would give a silver cup to the champion baseball club of the several wards.

Tells of Joliet Schools

William A. Allcott made an interesting address to the students about the Joliet schools, where he is teaching. He explained the work of the domestic science and manual training departments. Mr. Allcott stated these departments were kept open all the time had heated. Not only on school days but on Saturdays and at nights the students and teachers did work there. The swimming pool, athletic cage and every thing connected with the school of this character, was open to the scholars on Saturday. Occasionally at night the parents would be invited to see just what their children were doing and the work would be carried on in their presence. At one of these invitations five hundred were present.

Mr. Allcott had had charge of a class of sixteen boys whom it thought would be necessary to send to the reform school. These boys are being taught the art of manual training and the task of reforming the boys has been quite successfully accomplished by the school. The Chief of Police had complimented Mr. Allcott on his management of the boys. The Board of Education, together with Supt. R. O. Stoops is negotiating for the purchase of a farm where the boys can work, thus the school controlling both the playing and working hours of these youths.

Let us supply that new shirt and necktie for tomorrow's wear. Knobs.

SOCIAL EVENTS.

Invitations have been received by friends in the city, to the marriage of Martha Gertrude Gordon and Raymond Roe Fry, both of Seattle, Washington, the ceremony to take place in the First Christian church, of Seattle, Wednesday evening, April 22nd and will be followed by a large reception at the home of the bride's parents, Judge and Mrs. John B. Gordon, who were born and raised in this vicinity, but have lived in Seattle for 20 years. The bride-to-be is a grandchild of the late Hon. John Gordon and a niece of Mrs. Virginia Vasey, Mrs. Jessie Johnson and W. W. Gillham of this city.

Those present were Misses Pearl Jewsbury, Mardell McDougall, Marguerite Corrington, Dorothy Weber, Helen Harney, Bernice Dodsar, Lucile Mason, Lulu Bell Hildreth, Bessie Spies, Martha Coffman, Vida Dobson, Lillian Carter, Lucile Sperry, Hazel Claus, Hallie Gordon, Melba Anderson, Grace Wood, Elizabeth Coffman, Golda Prieston, Edna Leake, Mabel Peterson, Shirley Strawn.

Miss Helen Obermeyer entertained at cards at her home last night in honor of Misses Lucinda Obermeyer of Chicago and Pauline Strawn of Greenville. Guest prizes were given and the evening was spent in a social manner. The house was decorated for the occasion and light refreshments were served.

IS JACKSONVILLE SATISFIED.

The Evidence Is Convincing. The Testimony Open to Investigation.

Before a statement can be accepted here, it must be supported by local testimony—by the evidence of someone residing in Jacksonville. Statements from unknown people in remote places may be true, but we cannot prove them. Here is a statement by a Jacksonville resident:

Charles Godfrey, 335 S. Church St., Jacksonville, Ill., says: "All I said a few years ago praising Doan's Kidney Pills holds good. They did me a great deal of good and I advise their use in cases of weak back and other kidney troubles. Doan's Kidney Pills can be procured from Armstrong's drug store and are worthy of a trial."

"When Your Back is Lame—Remember the Name." Don't ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Godfrey had—the remedy backed by home testimony. 50c all stores. Foster-Milburn Co., Props., Buffalo, N. Y.
